BITE ODDS · THIS CAST

8/10

Strong odds

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
+ Mostly stable	+ No lightning	+ 10–10 mph usable ripple	+ Clear / sunny (~2%)	~ Fall transition · turnover	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **61–70°F**, lows **37–44°F**, rain chance up to **~2%**. Story is light and bait position — dawn and last light carry the window.

THREE-DAY WEATHER

MONDAY NOV 16

61° F high

LOW	37°F
SKY	Cloudy
WIND	NE 5–10 mph
RAIN	~1%
SUN	6:09 AM / 4:40 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

TUESDAY NOV 17

66° F high

LOW	40°F
SKY	Partly Sunny
WIND	NE 5–10 mph
RAIN	~1%
SUN	6:10 AM / 4:39 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

WEDNESDAY NOV 18

70° F high

LOW	44°F
SKY	Sunny
WIND	NE 10 mph
RAIN	~2%
SUN	6:11 AM / 4:39 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

Window: Mon–Wed · Air: NE · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING
- Shallow cover, points, creek mouths
- **First light (6:09 AM CST) → ~9 AM**
- Use any ripple as cover

MIDDAY
- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING
- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools. Possible turnover window on stratified reservoirs — the bite can go off for a few days.

Basis: estimated water ~64°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature

NATURAL FORAGE

Most likely menu: threadfin and gizzard shad on main-lake points and creek mouths, with bluegill around docks and grass.

ALSO BITING

Crappie: fall brush and creek channels — minnows and jigs around AL creek arms and docks. Catfish: cut bait near deeper channel swings on warm nights.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

gauge on the lake; air record trending falling

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. Generation schedule and flows below are copied from the operator as posted at the Cast pull — schedules change; re-check the operator page the morning you fish. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Walter F. George Lock & Dam	Mon 11/16: 5 AM - 9 AM CT 80 MW · Tue 11/17: schedule not posted yet · Wed 11/18: schedule not posted yet — USACE Mobile District generation schedule Observed: pool 186.49 ft (Mon 3:15 AM CT); observed outflow (USACE) 401 cfs (Mon 3:45 AM CT)	USACE Mobile District
Permit / regs	Start at Lakepoint State Park day-use shoreline and posted Alabama-side banks north of Eufaula where parking puts you within a short walk of grass edges, riprap, and shaded pockets.	
Clarity	Spinnerbait white/chartreuse on stained creek mouths after a cell.	

ACCESS — BANK / KAYAK / BOAT

BANK

Start at Lakepoint State Park day-use shoreline and posted Alabama-side banks north of Eufaula where parking puts you within a short walk of grass edges, riprap, and shaded pockets. Confirm park fees and hours before you go.

KAYAK

Launch into protected Alabama creek arms and grass flats away from main-lake ski traffic. The storm chance makes open water a poorer paddle — have a bailout shoreline and a lightning plan. Never sit in a dam-end boil.

BOAT

Launch early from Lakepoint State Park or a Chewalla Creek / Eufaula-corridor AL ramp when open, and plan the day in three acts. Late morning through afternoon, rotate to docks, shade, and deeper edges — mark bait height on a known grass edge before the first cast. Evening, revisit shallow shade.

LURE BOX

TOP

Walking bait or popper in bone / chrome at first light on Lakepoint grass points. Whopper-style plopper over hydrilla tops on slick mornings. Buzzbait black/chartreuse along shady banks evenings.

MID

Squarebill citrus or sexy shad along riprap and dock lines. Spinnerbait white/chartreuse on stained creek mouths after a cell. Soft swimbait for suspended fish over channel swings once the sun is high.

BOTTOM

Green pumpkin or junebug creature on a Texas rig for grass holes. Football jig brown/orange on point drops. Punch-rig or heavy Texas-rig when mats hold fish mid-day.
