Window: Mon–Wed · Air: S · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:57 AM MST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Slow down: steep points, channel drops and remaining grass just outside the creeks, between the fall flats and the 15-30 ft winter depth; suspending jerkbait with long pauses, jig-and-pig or blade bait crawled down the slope.**

BIOLOGY

BASS STAGE

Largemouth are in the late fall transition — water under the mid-50s, so bass are sliding off the shallow flats toward steeper points and channel drops near their fall feeding areas.

Basis: estimated water ~54°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature

NATURAL FORAGE

Most likely menu: shad or threadfin in open pockets where the lake carries them, plus bluegill and juvenile sunfish around brush and docks. Match what you see along the bank at dawn.

ALSO BITING

Channel catfish on deeper edges after dark where allowed. Crappie soft language on brush if the lake carries timber.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

gauge on the lake; air record trending falling

DAM & WATER — CONFIRM BEFORE YOU LAUNCH

FIXED Dam-controlled water. No shared generation/level feed this cycle — check the agency page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Permit / regs	Work permitted shoreline, points, and any posted piers or day-use banks at first light before the sun climbs.	
Clarity	Clarity confirms at the ramp.	

ACCESS — BANK / KAYAK / BOAT

BANK

Primary bank access is at Willow Springs Lake public ramp (Apache-Sitgreaves NF). Work permitted shoreline, points, and any posted piers or day-use banks at first light before the sun climbs. On this water, start on shade lines, brush, rock transitions, and the first break you can reach without crowding other anglers.

KAYAK

Launch at Willow Springs Lake public ramp (Apache-Sitgreaves NF) when the ramp and parking are open. Fish protected coves, windward points on light breeze days, and shade pockets once the sun is up. Afternoons can bring open-water chop on larger fetches — have a bailout bank and get off the water for lightning.

BOAT

Plan dawn at Willow Springs Lake public ramp (Apache-Sitgreaves NF): topwater and spinnerbait on points and bait, then docks, brush, and the first drop as light hardens. Confirm ramp depth and any lake-level notices before you trailer.

LURE BOX

TOP

Walking bait or popper at dawn on slick points. Soft buzzbait along shade edges when cloud cover holds.

MID

Spinnerbait white/chartreuse when a breeze chops the surface. Soft swimbait for suspended fish off points. Squarebill on any riprap.

BOTTOM

Green pumpkin creature or Texas-rig worm in brush. Dropshot or shaky head on the first break when fish suspend.
