BITE ODDS · THIS CAST

Strong odds

8/10

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
+ Mostly stable	+ No lightning	+ 5–10 mph usable ripple	+ Clear / sunny (~1%)	~ Fall transition · turnover	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **63–69°F**, lows **43–53°F**, rain chance up to **~1%**. Story is light and bait position — dawn and last light carry the window.

THREE-DAY WEATHER

MONDAY NOV 16

63° F high

LOW	43°F
SKY	Sunny
WIND	NE 5–10 mph
RAIN	~1%
SUN	6:48 AM / 5:12 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

TUESDAY NOV 17

65° F high

LOW	47°F
SKY	Sunny
WIND	E 0–5 mph
RAIN	~0%
SUN	6:49 AM / 5:11 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

WEDNESDAY NOV 18

69° F high

LOW	53°F
SKY	Sunny
WIND	E 0–5 mph
RAIN	~1%
SUN	6:50 AM / 5:11 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

Window: Mon–Wed · Air: NE → E · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:48 AM CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools. Possible turnover window on stratified reservoirs — the bite can go off for a few days.

Basis: estimated water ~64°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature

NATURAL FORAGE

Threadfin and gizzard shad are the main food on Millwood, and in fall they start drifting back toward the timbered backs and shallow points.

ALSO BITING

Crappie: brush piles and deeper standing timber with small jigs and minnows at dawn and dusk; the bite should improve as nights cool. Catfish: channel and flathead feed on warm nights; cut bait on deep channel swings and timber edges.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

gauge on the lake; air record trending falling

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. No generation schedule posted by USACE SWL for Mon Nov 16 – Wed Nov 18 — check the operator page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Millwood Dam	No generation schedule posted by USACE SWL for Mon Nov 16 – Wed Nov 18 Observed: pool 259.17 ft (Mon 3:00 AM CT); observed outflow (USACE) 170 cfs (Mon 3:00 AM CT)	USACE SWL
Permit / regs	The best public bank access for this product is Beard's Bluff Park in Hempstead County, where day-use parking and public shoreline put you within a short walk of timbered points, brush, and shallow coves.	
Clarity	USACE Little Rock District / Vicksburg District lake page · ramp-side clarity.	

ACCESS — BANK / KAYAK / BOAT

BANK

The best public bank access for this product is Beard's Bluff Park in Hempstead County, where day-use parking and public shoreline put you within a short walk of timbered points, brush, and shallow coves. Confirm USACE day-use rules and any seasonal closures before you go.

KAYAK

Launch from the Beard's Bluff Park boat ramp when the lane is usable at current lake level, and confirm with USACE recreation notices that the ramp is open before you load up. Are the quieter paddle days: drift brushy pockets and fish the first ledge with a shaky head or flipping jig.

BOAT

Launch early from Beard's Bluff Park or another open USACE ramp in the Ashdown corridor and plan the morning in three steps. Mid-morning, move to denser brush piles and timber pockets in the backs. By late morning, use electronics to find bass on deeper timber lines and channel swings, and fish jigs and Texas rigs slowly.

LURE BOX

TOP

Walking bait in bone or chrome at dawn on main-lake points, especially calm. Popper over submerged brush in the arms. Buzzbait in white along a lightly rippled point face on the first hour.

MID

White or white-chartreuse spinnerbait on breezy or rippled points. Shad-colored squarebill on riprap and rock transitions. Soft swimbait on a light jighead for bass suspended over brush when the sun is high.

BOTTOM

Green pumpkin Texas-rigged creature bait in brush. Brown or green football jig on point drops. Drop shot with a natural minnow-style worm on deeper ledges during the slick, bright middle of.
