HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:45 AM EST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~58°F — 75-day observed air record (NOAA ACIS) lagged for a pond (10-day response); no water-temperature gauge on the lake; air record trending falling

NATURAL FORAGE

What's on the menu: No dated forage report for this window turned up. The most likely meals are young perch and shiners where present, bluegill and sunfish around docks and weed edges, and crawfish on rock and gravel.

ALSO BITING

Also hot: Chain pickerel on the same weed edges you fish for bass, and yellow perch and crappie schooling over flats and brush as water cools. Check current state rules before you keep fish.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

WATER BOARD — LAKE CHEAT SHEET

FIXED Natural / small-impoundment water — no generation table. Check access rules and level notes with the managing agency before you go.

ITEM	NOTE	SOURCE
Clarity	Clarity is unconfirmed, so start with natural shad and bluegill colors and darken only if banks stain.	

ACCESS — BANK / KAYAK / BOAT

BANK

Killens Pond State Park in Felton has a boardwalk and shoreline trails along this 66-acre millpond on the Murderkill River. Most of the shoreline sits in one to five feet of water, so a weedless frog over the lily pads and a shallow spinnerbait are the right tools from shore.

KAYAK

The park map marks a canoe trail, and the shallow upper Murderkill end, only inches deep in spots, is paddle-only water. Launch at the ramp at the far end of the boardwalk on Killens Pond Road. Fish the center island, which drops quickly to about six feet on its main-lake side but only about three on the other.

BOAT

The Killens Pond ramp is a simple, unimproved paved launch for small motorized boats with very limited parking, and the pond is no-wake. Start on the lily pads with a frog, then work the center island's wood and grass, fishing the main-lake side where it drops to about six feet.

LURE BOX

TOP

Walking topwater (bone / white) at first light. Hollow-body frog (white or black) over pads. Buzzbait along reed and grass edges.

MID

Bladed jig or spinnerbait (white / chartreuse shad). Squarebill crankbait (craw / shad) on wood and riprap. Swim jig through thin grass.

BOTTOM

Texas-rigged worm (green pumpkin / junebug). Flipping jig or creature bait in the thickest cover. Wacky or Ned rig on isolated targets.
