HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:50 AM EST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~70°F — 75-day observed air record (NOAA ACIS) lagged for a river (10-day response); no water-temperature gauge on the lake; air record trending falling

NATURAL FORAGE

What's on the menu: No dated forage report for this window turned up. The most likely meals are shiners and threadfin shad where present, bluegill and other sunfish around reeds and pads, and crawfish and grass shrimp in the vegetation.

ALSO BITING

Also hot: Bluegill and redear around reed edges and docks, and black crappie (speckled perch) starting to gather on deeper brush and open-water edges as nights cool. Check FWC rules for size and bag limits.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

WATER BOARD — LAKE CHEAT SHEET

FIXED Natural / small-impoundment water — no generation table. Check access rules and level notes with the managing agency before you go.

ITEM	NOTE	SOURCE
Clarity	Clarity is unconfirmed, so start with natural shad and bluegill colors and darken only if banks stain.	

ACCESS — BANK / KAYAK / BOAT

BANK

Hickory Point Recreation Complex on State Road 19 in Tavares has public shoreline on Little Lake Harris, and the Lake Griffin State Park ramp off US 441 in Fruitland Park has bank room too. Canal mouths and drop-offs next to shoreline grass hold bass, so throw a swimbait or a weightless stick worm there.

KAYAK

The connector runs are sheltered compared with open Harris and Apopka: Dora Canal, the Dead River, and Haynes Creek. The Lake Griffin State Park launch sits about a mile up a canal from the lake, so the paddle out is easy. Fish reed and pad edges with a frog or a wacky worm.

BOAT

Hickory Point's 12 lanes and the Astatula Boat Ramp on Florida Avenue put you on Lake Harris; work its hard bottom, Kissimmee grass, shellbeds, and patchy hydrilla with a lipless crankbait, then a Carolina rig. Lake Griffin offers reeds, hydrilla, lily pads, eelgrass, and Emeralda Marsh.

LURE BOX

TOP

Walking topwater (bone / white) at first light. Hollow-body frog (white or black) over pads. Buzzbait along reed and grass edges.

MID

Bladed jig or spinnerbait (white / chartreuse shad). Squarebill crankbait (craw / shad) on wood and riprap. Swim jig through thin grass.

BOTTOM

Texas-rigged worm (green pumpkin / junebug). Flipping jig or creature bait in the thickest cover. Wacky or Ned rig on isolated targets.
