BITE ODDS · THIS CAST

5/10 — Fair odds

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
+ Stable pattern	+ No lightning	− Up to 20 mph · unsafe chop	− Rain up to ~67%	+ Fall transition	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **74–75°F**, lows **67–69°F**, rain chance up to **~67%**. Story is the wet stretch — bite windows ride the rain timing, not the calendar.

THREE-DAY WEATHER

MONDAY NOV 16

75° F high

LOW	67°F
SKY	Partly Sunny
WIND	NE 9–16 mph
RAIN	~19%
SUN	6:47 AM / 5:33 PM

Frame: Breeziest day — use ripple on wind-blown banks and points; open-water chop is higher risk.

TUESDAY NOV 17

74° F high

LOW	68°F
SKY	Chance Rain Showers
WIND	ENE 14–17 mph
RAIN	~44%
SUN	6:48 AM / 5:32 PM

Frame: Breeziest day — use ripple on wind-blown banks and points; open-water chop is higher risk.

WEDNESDAY NOV 18

74° F high

LOW	69°F
SKY	Rain Showers Likely
WIND	NE 15–20 mph
RAIN	~67%
SUN	6:49 AM / 5:32 PM

Frame: Wet day — fish the front side of the rain; slow down and stay close to cover after it passes.

Window: Mon–Wed · Air: NE → ENE · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:47 AM EST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~74°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature gauge on the lake; air record trending falling

NATURAL FORAGE

What's on the menu: No dated forage report for this window turned up. The most likely meals are shiners and threadfin shad where present, bluegill and other sunfish around reeds and pads, and crawfish and grass shrimp in the vegetation.

ALSO BITING

Also hot: Bluegill and redear around reed edges and docks, and black crappie (speckled perch) starting to gather on deeper brush and open-water edges as nights cool. Check FWC rules for size and bag limits.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. No generation schedule posted by the operator for Mon Nov 16 – Wed Nov 18 — check the operator page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
LAKE WEOHYAKAPKA AT INDIAN LAKE ESTATES, FL	No generation schedule posted by the operator for Mon Nov 16 – Wed Nov 18 Observed: pool 61.24 ft (Mon 3:30 AM CT)	the operator
Clarity	Clarity is unconfirmed, so start with natural shad and bluegill colors and darken only if banks stain.	

ACCESS — BANK / KAYAK / BOAT

BANK

The Lake Walk-in-Water Boat Ramp at the end of Boat Landing Road, off Walk-in-the-Water Road about 10 miles east of Lake Wales, is the free public foothold on the west shore. Cattail, bulrush, maidencane, and knotgrass line the shore, so throw a frog or weedless swimbait along them at first light and work any points in the grass.

KAYAK

The shoreline grass and the Tiger Creek mouth in the southwest corner are the best paddling areas. The open middle of this 7,528-acre lake is exposed to wind, so stay along the edges. Fish the grass with a wacky worm or frog.

BOAT

The Boat Landing Road ramp is one free concrete lane. Offshore hydrilla holds bass, and drifting shiners there is the top technique, though a swimbait or lipless crankbait works too. FWC has placed seven buoy-marked fish attractors built from artificial trees, so fish them with a Texas rig.

LURE BOX

TOP

Walking topwater (bone / white) at first light. Hollow-body frog (white or black) over pads. Buzzbait along reed and grass edges.

MID

Bladed jig or spinnerbait (white / chartreuse shad). Squarebill crankbait (craw / shad) on wood and riprap. Swim jig through thin grass.

BOTTOM

Texas-rigged worm (green pumpkin / junebug). Flipping jig or creature bait in the thickest cover. Wacky or Ned rig on isolated targets.
