HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (7:38 AM MST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Slow down: steep points, channel drops and remaining grass just outside the creeks, between the fall flats and the 15-30 ft winter depth; suspending jerkbait with long pauses, jig-and-pig or blade bait crawled down the slope.**

BIOLOGY

BASS STAGE

Largemouth are in the late fall transition — water under the mid-50s, so bass are sliding off the shallow flats toward steeper points and channel drops near their fall feeding areas.

Basis: estimated water ~51°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day

NATURAL FORAGE

Glassy midday water pushes fish tight to shade and cover around Boise County. By, expect fish at Arrowrock Reservoir to settle into predictable shade lines you can re-hit without a long run.

ALSO BITING

Crappie can show on a slow midday drop along the first break near Arrowrock Reservoir public ramp. Bluegill mix on the same shade lines you fish for bass — keep a light jig ready as a bonus cast.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

response); no water-temperature gauge on the lake; air record trending falling

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. No generation schedule posted by Bureau of Reclamation for Mon Nov 16 – Wed Nov 18 — check the operator page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ACCESS — BANK / KAYAK / BOAT

BANK

Bank fishing starts at Arrowrock Reservoir public ramp, where you can reach rocky points, steep banks, and the first drop you can reach from the public ramp within a short walk of the truck. Work a soft stickbait or weightless fluke along shade lines, then pitch a compact jig into the nearest cover.

KAYAK

Kayak anglers should launch at Arrowrock Reservoir public ramp and hug the protected shoreline rather than crossing open water when a breeze is up. The calmest middle of the weekday window is usually the cleanest paddle day: start on windward points with a spinnerbait, then slip into protected pockets for a wacky rig.

BOAT

Trailers use Arrowrock Reservoir public ramp — launch, clear the lane, and idle out before you plane. At first light, run points, edges, and secondary drops with a squarebill or spinnerbait, then slow down with a Texas-rigged beaver when the sun climbs.

LURE BOX

TOP

Medium crankbait.

MID

Flipping jig. Creature bait. Senko-style stick.

BOTTOM

Light drop-shot. Stain/clear: On stained water at Arrowrock Reservoir, lean chartreuse and black/blue; on clearer afternoons, natural green pumpkin and translucent stickbaits get more looks. Match lure size to the forage you see along Arrowrock Reservoir public ramp.
