## HOW TO FISH THIS WEATHER

### MORNING

- Shallow cover, points, creek mouths
- **First light (first light CST) → ~9 AM**
- Use any ripple as cover

### MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

### EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

## BIOLOGY

### BASS STAGE

**Largemouth are in the fall transition — following bait into creeks and onto flats as water cools.**

Basis: estimated water ~57°F — statewide median of 25 lake estimates from the observed air record (NOAA ACIS) — no coordinates on file for this lake; no water-temperature gauge on the lake; air record trending falling

### NATURAL FORAGE

**What's on the menu: Shad and bluegill on points and wood — chrome/white early, green-pumpkin plastics later.**

### ALSO BITING

**Crappie on the same timber with a small jig if you slow down. Catfish after dark near deeper wood if you stay late.**

### PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

## WATER BOARD — LAKE CHEAT SHEET

FIXED Natural / small-impoundment water — no generation table. Check access rules and level notes with the managing agency before you go.

| ITEM | NOTE | SOURCE |
|---|---|---|
| Permit / regs | Regulations: check current Illinois fishing regulations and any Marion County or site rules before keeping fish. | |
| Clarity | Water clarity / depth. | |

## ACCESS — BANK / KAYAK / BOAT

### BANK

Bank fishing starts near the public Forbes Lake ramp in Marion County, where you can reach shoreline wood, riprap, and the first point within a short walk of the lot. Work a soft stickbait along shade, then pitch a jig into the nearest visible cover.

### KAYAK

Launch at the same public ramp and hug windward banks when the northeast breeze is up. The light southeast air is the cleanest paddle day — start on secondary points with a spinnerbait, then slip into pockets for a wacky rig. Wear a PFD the whole time, and keep a short abort back to the ramp before dark.

### BOAT

Trailers use the public Forbes Lake ramp — launch, clear the lane, and idle out. At first light, run the wind-blown points and timber with a spinnerbait or squarebill, then slow down with a Texas-rigged creature when the sun locks . The light air lets you cover a full shoreline rotation without fighting chop.

## LURE BOX

### TOP

Buzzbait or walking bait at dawn and on slick evenings. Popper over isolated wood when the afternoon breeze dies.

### MID

Spinnerbait or squarebill on points. Bladed jig when stain bumps after wind or traffic.

### BOTTOM

Texas-rigged creature in timber. Shaky head or wacky rig on the outside edge. Stain/clear: Stained to moderately clear — bump contrast if wind dirties a point.
