## HOW TO FISH THIS WEATHER

### MORNING

- Shallow cover, points, creek mouths
- **First light (first light CST) → ~9 AM**
- Use any ripple as cover

### MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

### EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

## BIOLOGY

### BASS STAGE

**Largemouth are in the fall transition — following bait into creeks and onto flats as water cools.**

Basis: estimated water ~56°F — statewide median of 23 lake estimates from the observed air record (NOAA ACIS) — no coordinates on file for this lake; no water-temperature gauge on the lake; air record trending falling

### NATURAL FORAGE

**Pressure on Dewart Lake should stay lighter than a weekend, but the Kosciusko County public ramp corridor still sees after-work spinning rods.**

### ALSO BITING

**Largemouth share the same outside weed edges you are fishing for bluegill on Dewart Lake — keep a stickbait or compact jig ready as a bonus cast, but do not abandon the panfish plan on the cold dawn.**

### PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

## WATER BOARD — LAKE CHEAT SHEET

FIXED Natural / small-impoundment water — no generation table. Check access rules and level notes with the managing agency before you go.

## ACCESS — BANK / KAYAK / BOAT

### BANK

Start on the posted shoreline at the Dewart Lake public access ramp (Kosciusko County), then fan out along the walk-in banks beside the concrete ramp parking and any open public shoreline you can reach without crossing private docks. Keep a compact spinner or soft stickbait ready if a largemouth flashes on the same edge.

### KAYAK

Launch from the Dewart Lake public concrete ramp and stay inside a short paddle of the public shoreline for this window. Pack a light panfish rod for jigs and a medium rod with a small spinnerbait or weightless stickbait for any largemouth that share the same edge.

### BOAT

Run out from the Dewart Lake public concrete ramp (Kosciusko County) and keep the plan compact — this is a natural lake, not a big reservoir run. Graph the first clean outside weed edge and any short drop you can see from the ramp corridor before you idle the whole basin.

## LURE BOX

### TOP

No topwater slot on file for this water — stay mid / bottom.

### MID

A tiny crank or spinner for covering outside grass. A weightless stickbait in green pumpkin for shared largemouth water. A compact spinnerbait for the light south breeze.

### BOTTOM

Pack small 1/16–1/8 oz jigs in natural perch and bluegill colors. One light drop-shot for clear midday water on the first break.
