HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (first light CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~56°F — statewide median of 23 lake estimates from the observed air record (NOAA ACIS) — no coordinates on file for this lake; no water-temperature gauge on the lake; air record trending falling

NATURAL FORAGE

Pressure on Glenn Flint should stay lighter than a weekend, but the Putnam County public ramp corridor still sees after-work rods. If the first shoreline stretch is occupied, slide to the next open public bank or a short kayak hop.

ALSO BITING

Bluegill and crappie mix on the same Glenn Flint timber and ramp shade you are fishing for largemouth — keep a light jig ready as a bonus cast, then return to the bass plan on the prime low-light windows.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

WATER BOARD — LAKE CHEAT SHEET

FIXED Natural / small-impoundment water — no generation table. Check access rules and level notes with the managing agency before you go.

ACCESS — BANK / KAYAK / BOAT

BANK

Start on the posted shoreline at the Glenn Flint Lake public ramp (Putnam County), then fan out along walk-in banks beside the concrete ramp and any open public shoreline you can reach without crossing private docks.

KAYAK

Launch from the Glenn Flint Lake public concrete ramp and stay inside a short paddle of public shoreline. Pack a spinnerbait for covering water and a Texas-rig creature for midday shade. When the south-southeast breeze or the west-southwest wind chops the open water, refuse a long crossing and keep fishing protected edges.

BOAT

Run out from the Glenn Flint Lake public concrete ramp (Putnam County) and keep the plan compact. Graph timber edges, ramp riprap, and the first break before you idle the whole basin. The calm north air makes spot-lock easy on secondary wood; work a jig or shaky head and keep a topwater ready if shad flick.

LURE BOX

TOP

One walking topwater for calm dawn shad.

MID

Glenn Flint's box should cover public timber and ramp riprap: a weightless stickbait. A spinnerbait or squarebill for the breeze.

BOTTOM

A compact flipping jig. A Texas-rig creature. A shaky head or drop-shot for clear midday water.
