Patoka Lake

Indiana

Mon Nov 16 – Wed Nov 18, 2026 · EST · Largemouth

BITE ODDS · THIS CAST

Strong odds

9/10

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
+ Mostly stable	+ No lightning	+ 1–3 mph usable ripple	+ Clear / sunny (~0%)	+ Fall transition	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **57–64°F**, lows **32–38°F**, rain chance up to **~0%**. Story is light and bait position — dawn and last light carry the window.

THREE-DAY WEATHER

MONDAY NOV 16

57° F high

LOW	32°F
SKY	Patchy Fog then Sunny
WIND	E 1 mph
RAIN	~0%
SUN	7:29 AM / 5:33 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

TUESDAY NOV 17

60° F high

LOW	35°F
SKY	Patchy Fog then Sunny
WIND	SE 2 mph
RAIN	~0%
SUN	7:30 AM / 5:32 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

WEDNESDAY NOV 18

64° F high

LOW	38°F
SKY	Sunny
WIND	S 3 mph
RAIN	~0%
SUN	7:31 AM / 5:32 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

Window: Mon–Wed · Air: E → SE → S · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (7:29 AM EST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~57°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature gauge on the lake; air record trending falling

NATURAL FORAGE

Pressure should be light compared with the weekend. Local anglers and evening trips still stack the most popular ramps and the closest points after work, so fish the second stretch of cover if the first is taken.

ALSO BITING

Crappie stack in the timber this time of year and are a fine bonus; keep the largemouth plan on the outside tree lines and points.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. No generation schedule posted by USACE LRL for Mon Nov 16 – Wed Nov 18 — check the operator page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Patoka Lake	**No generation schedule posted by USACE LRL for Mon Nov 16 – Wed Nov 18** Observed: pool 536.70 ft (Mon 3:15 AM CT); observed outflow (USACE) 291 cfs (Mon 4:00 AM CT)	USACE LRL

ACCESS — BANK / KAYAK / BOAT

BANK

Walk the posted banks at Newton Stewart SRA and Walls Creek-area recreation shoreline, plus posted banks where standing timber and rock meet a short drop within an easy walk of the lot.

KAYAK

Launch from the Newton Stewart or Walls Creek-side launches; stay in the timbered creek arms and coves instead of crossing the open main basin. These calm, clear mornings are ideal for a quiet paddle along the first creek-arm banks: parallel the cover, then stake out on the best brush or point once the sun is up.

BOAT

Run out from the Newton Stewart and Painter Creek-area ramps; graph the first timber edges and channel swings before running far uplake. With sunny skies, graph main-lake points and channel swings for shad and suspended fish before you commit to a long run.

LURE BOX

TOP

One topwater for calm dawn and shad schools.

MID

Pack a weightless stickbait. A squarebill or spinnerbait for windy banks.

BOTTOM

A compact flipping jig. A Texas-rig creature. A drop-shot or shaky head for clear-water depth.
