HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (7:03 AM CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Slow down: steep points, channel drops and remaining grass just outside the creeks, between the fall flats and the 15-30 ft winter depth; suspending jerkbait with long pauses, jig-and-pig or blade bait crawled down the slope.**

BIOLOGY

BASS STAGE

Largemouth are in the late fall transition — water under the mid-50s, so bass are sliding off the shallow flats toward steeper points and channel drops near their fall feeding areas.

Basis: estimated water ~54°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature

NATURAL FORAGE

Pressure on Ahquabi should stay lighter than a weekend, but Lake Ahquabi State Park shoreline still sees evening traffic from Indianola and the south Des Moines metro after work.

ALSO BITING

Crappie and bluegill are the bonus mix on Ahquabi when the midday bass bite slows — keep a light jig ready for the same campground timber you are pitching for largemouth.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

gauge on the lake; air record trending falling

DAM & WATER — CONFIRM BEFORE YOU LAUNCH

FIXED Dam-controlled water. No shared generation/level feed this cycle — check the agency page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Permit / regs	Bass regs (Iowa statewide inland summary): black bass 15-inch minimum length, 3 fish daily creel.	

ACCESS — BANK / KAYAK / BOAT

BANK

Walk the posted shoreline at Lake Ahquabi State Park campground, then rotate to beach / boat-ramp banks and the north-shore trail shoreline when the sun climbs.

KAYAK

Launch from the Lake Ahquabi State Park boat ramp and stay inside protected water for this window. The light south breeze is perfect for a silent paddle along campground timber — parallel the wood, then stake out on the best outside edge once the sun clears.

BOAT

Run out from the Lake Ahquabi State Park boat ramp. Graph campground timber, beach riprap, and north-shore points before you burn fuel on a long spillway run — fish are relating to wood and rock that touch deeper water.

LURE BOX

TOP

One walking topwater for calm dawn shad activity. Skip bulky frogs until you find matted cover — most of the productive wood is brush and shoreline timber.

MID

Pack a weightless stickbait in green pumpkin. A 1/2-oz spinnerbait or squarebill for the windblown beach rock.

BOTTOM

A compact flipping jig with a craw trailer. A Texas-rig creature for thicker campground wood. A shaky head or drop-shot for clear midday water.
