HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (first light CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~57°F — statewide median of 27 lake estimates from the observed air record (NOAA ACIS) — no coordinates on file for this lake; no water-temperature gauge on the lake; air record trending falling

NATURAL FORAGE

Weekday pressure at Washington State Fishing Lake should be light, especially on windy, but the Washington boat ramp still sees after-work anglers from around Washington County. If the bank by the ramp is taken, walk to the next open public stretch.

ALSO BITING

Bluegill and crappie hold on the same shade lines and brush near the Washington boat ramp — keep a light jig handy.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

WATER BOARD — LAKE CHEAT SHEET

FIXED Natural / small-impoundment water — no generation table. Check access rules and level notes with the managing agency before you go.

ITEM	NOTE	SOURCE
Permit / regs	Bass regs (Kansas statewide summary): black bass follow Kansas statewide length and creel rules at Washington State Fishing Lake unless a lake-specific posting says otherwise — confirm the current KDWP card and the ramp board before you keep fish.	
Clarity	Chartreuse/white blades fit wind-stained water; switch to green pumpkin and natural shad on calm, clear banks.	

ACCESS — BANK / KAYAK / BOAT

BANK

Start at the Washington boat ramp, then work the east-side picnic shoreline and any open public bank you can reach without leaving KDWP access at Washington. The northeast breeze flips the windblown side to the south and west banks; move with it.

KAYAK

No kayak slot on file for this water — confirm access with the managing agency before you go.

BOAT

Launch at the Washington boat ramp and read the ramp board for any horsepower or no-wake rule — Washington is a state fishing lake, not a reservoir run. Use the gusty south wind: position on the downwind north side and fish windblown banks and points with moving baits, using a drift sock or spot-lock to stay in the strike zone.

LURE BOX

TOP

One walking topwater for the calmer dawn.

MID

A squarebill for the windblown banks. A lipless crank for covering open flats in the gusts. A weightless stickbait.

BOTTOM

Washington’s largemouth box: a 3/8–1/2 oz spinnerbait or bladed jig. A 3/8 oz jig for the hot calm shade. A Texas-rig worm or creature for weed pockets.
