Minnesota
Mon Nov 16 – Wed Nov 18, 2026 · Central Time · Largemouth

BITE ODDS · THIS CAST

5/10 — Fair odds

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
+ Mostly stable	+ No lightning	− Up to 15 mph · open-water chop	~ Rain up to ~21%	~ Fall transition	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **54–58°F**, lows **42–49°F**, rain chance up to **~21%**. Story is wind — pick banks the breeze is hitting and keep crossings short.

THREE-DAY WEATHER

MONDAY NOV 16

54° F high

LOW	42°F
SKY	Mostly Sunny
WIND	S 5–10 mph
RAIN	~0%
SUN	7:06 AM / 4:40 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

TUESDAY NOV 17

56° F high

LOW	45°F
SKY	Mostly Sunny
WIND	S 10 mph
RAIN	~0%
SUN	7:07 AM / 4:39 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

WEDNESDAY NOV 18

58° F high

LOW	49°F
SKY	Mostly Sunny
WIND	S 10–15 mph
RAIN	~21%
SUN	7:09 AM / 4:39 PM

Frame: Breeziest day — use ripple on wind-blown banks and points; open-water chop is higher risk.

Window: Mon–Wed · Air: S · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (7:06 AM CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Slow down: steep points, channel drops and remaining grass just outside the creeks, between the fall flats and the 15-30 ft winter depth; suspending jerkbait with long pauses, jig-and-pig or blade bait crawled down the slope.**

BIOLOGY

BASS STAGE

Largemouth are in the late fall transition — water under the mid-50s, so bass are sliding off the shallow flats toward steeper points and channel drops near their fall feeding areas.

Basis: estimated water ~49°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response), adjusted by 1 nearby

NATURAL FORAGE

Warm days and cooler nights are slowly dropping water temperatures, and fish are spreading between the sand flats, channel edges and rocky shorelines where baitfish school. What's on the menu: gizzard shad, emerald shiners and young-of-year perch.

ALSO BITING

White bass · smallmouth. White bass chase shad on calm mornings; watch for gulls.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

USGS lake gauge; no water-temperature gauge on the lake; air record trending falling

WATER BOARD — LAKE CHEAT SHEET

FIXED Natural / small-impoundment water — no generation table. Check access rules and level notes with the managing agency before you go.

ITEM	NOTE	SOURCE
Permit / regs	You need a valid fishing license, and boundary-water rules decide where each state's license is valid.	

ACCESS — BANK / KAYAK / BOAT

BANK

The Wisconsin shore has several public parks with walk-up water. Stockholm Village Park and the Pepin marina area give you rock and harbor edges, and Bay City's public shoreline at the upper end sits near the incoming river channel. On the Minnesota side, Lake City's harbor breakwalls are a popular walk-out spot.

KAYAK

Launch at Stockholm or Pepin and stay close to the Wisconsin shore, working rocky points and the Rush River mouth near Maiden Rock. Lake Pepin is about two miles wide in places, and wind running along its length can build big waves quickly, so do not cross the lake in a kayak.

BOAT

Launch at Pepin, Stockholm or Bay City on the Wisconsin side, or at Lake City on the Minnesota side. Troll shad- and minnow-profile crankbaits along the edges of the sand flats in about 8–18 feet, then slow down with a jig and minnow or a three-way rig on channel edges and rock once you find fish.

LURE BOX

TOP

Shallow minnow-style crankbait along riprap at dusk. Slip bobber with a minnow on rocky points at low light. Surface baits are for white bass and smallmouth, not walleye.

MID

Shad-profile crankbait trolled along flat edges in 8–18 feet. Minnow-profile crankbait on lead-core or snap weights. Blade bait snapped near channel edges when fish mark tight.

BOTTOM

Jig and fathead or shiner, 1/4–3/8 oz, on channel edges. Three-way rig with a minnow or floating crankbait in current. Jig with a 3" ringworm or paddle-tail for active fish.
