HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (first light CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools. Possible turnover window on stratified reservoirs — the bite can go off for a few days.

Basis: estimated water ~63°F — statewide median of 38 lake estimates from the observed air record (NOAA ACIS) — no

NATURAL FORAGE

You will see bait around points, timber, and the first drop, and birds often mark the best schools.

ALSO BITING

Brush and timber hold crappie; small jigs and minnows around cover in the cooler morning water Work the same shade and edges you would for largemouth bass, just scale down the bait and slow the retrieve. Bluegill / redear.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

ACCESS — BANK / KAYAK / BOAT

BANK

Posted MDWFP shoreline and any walk-up bank at Lake Lincoln is the land-based play this week. Fish a weightless stickbait, a small spinnerbait, or a jig under a float along shade, timber, and riprap at sunrise and again in the last hour of light.

KAYAK

Launch at a posted public trailer or carry-in access on Lake Lincoln and paddle the lee shoreline, timber edges, and protected pockets at first light. A spinnerbait or chatterbait covers water early; slow down with a Texas-rigged creature or wacky worm as the sun climbs.

BOAT

Launch at a posted public boat access for Lake Lincoln. Work main-lake points, timber, and any breeze-blown bank early with a spinnerbait or crankbait, then flip soft plastics into shade as the day heats up.

LURE BOX

TOP

Spinnerbait or chatterbait along timber edges at first light. Walking bait or popper on calm shade lines early. Squarebill crankbait bumping wood in stained pockets.

MID

Texas-rig creature or stickbait flipped into timber and shade. Shakey head or ned rig on harder edges between cover. Jig and chunk pitched to docks or laydowns if present.

BOTTOM

Soft plastic stickbait weightless in the morning chill. Drop-shot or light Texas-rig when fish suspend off timber. Small jig for bank and pier anglers after dark.
