HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:51 AM CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: water 57°F — USGS lake gauge 07053600 (Lake Taneycomo At School Of The Ozarks, , 3 km), 24-h mean to Mon 3:30 AM; air record trending falling

NATURAL FORAGE

Shad and bluegill are the usual forage on Kansas City-area reservoirs in fall. Watch for surface activity at first light and for bait dimpling on points.

ALSO BITING

Brush and docks hold crappie; small jigs around cover in the cooler morning water Work the same shade and edges you would for trout, just scale down the bait and slow the retrieve.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. Generation schedule and flows below are copied from the operator as posted at the Cast pull — schedules change; re-check the operator page the morning you fish. Stay outside buoyed restricted zones.

ACCESS — BANK / KAYAK / BOAT

BANK

Productive at dawn and dusk when boat traffic is light.

KAYAK

Launch at a posted public trailer or carry-in access on Taneycomo Lake and paddle the lee shoreline and protected pockets at first light. A spinnerbait or chatterbait covers water early; slow down with a soft plastic as fish slide into shade by midday.

BOAT

Launch at a posted public boat access for Taneycomo Lake. Work main-lake points and any breeze-blown bank early with a spinnerbait or crankbait, then flip soft plastics into shade and cover as the day heats up. Idle between spots, keep speeds down near kayaks and bank anglers, and treat this as a compact reservoir or lake day.

LURE BOX

TOP

Spinnerbait or chatterbait on points at first light. Walking bait or popper on calm banks early. Squarebill crankbait bumping rock and wood.

MID

Texas-rig creature or stickbait flipped into shade and cover. Shakey head or ned rig on harder point edges. Jig and chunk pitched to docks or laydowns if present.

BOTTOM

Soft plastic stickbait weightless after the cool night. Drop-shot or light Texas-rig when fish suspend off points. Small jig for bank anglers at dusk.
