HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (first light CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Walleye plan: Fish rock and gravel 10-25 ft at low light; jig and minnow or troll stickbaits, moderate.**

BIOLOGY

BASS STAGE

Walleye are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~49°F — statewide median of 22 lake estimates from the observed air record (NOAA ACIS) — no coordinates on file for this lake; no water-temperature gauge on the lake; air record trending rising

NATURAL FORAGE

Natural perch and shad finishes cover most sunny scenarios.

ALSO BITING

Northern pike where present. Weeds and creek mouths early.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

DAM & WATER — CONFIRM BEFORE YOU LAUNCH

FIXED Dam-controlled water. No shared generation/level feed this cycle — check the agency page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Clarity	If water is stained, keep profile larger for walleye; if clear, lighten line.	

ACCESS — BANK / KAYAK / BOAT

BANK

Work Eureka Reservoir public shoreline near the concrete ramp before you wander. If water is stained, keep profile larger for walleye; if clear, lighten line. Eureka Reservoir bank plans stay honest and public.

KAYAK

Protected pocket Eureka protected shoreline is the weekday default. Cast tight for walleye, then drift. Near Eureka Reservoir, keep a charged phone dry.

BOAT

Launch clean toward Eureka public ramp and main-lake points. Wind-blown side if safe for walleye, else lee and slower. Abort to protection early at Eureka Reservoir.

LURE BOX

TOP

Shallow cranks on riprap dawn. Walking baits if bait is high. Small swimbaits over points.

MID

Jig + minnow / soft plastic. Blade baits on seams. Moderate cranks on breaks.

BOTTOM

Crawler harness / bottom bouncer. Heavier jigs on current. Ned or drop-shot under high sun.
