HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (first light CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Walleye plan: Fish rock and gravel 10-25 ft at low light; jig and minnow or troll stickbaits, moderate.**

BIOLOGY

BASS STAGE

Walleye are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~54°F — statewide median of 24 lake estimates from the observed air record (NOAA ACIS) — no coordinates on file for this lake; no water-temperature gauge on the lake; air record trending falling

NATURAL FORAGE

Natural perch and shad finishes cover most sunny scenarios.

ALSO BITING

Northern pike where present. Weeds and creek mouths early.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

DAM & WATER — CONFIRM BEFORE YOU LAUNCH

FIXED Dam-controlled water. No shared generation/level feed this cycle — check the agency page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ACCESS — BANK / KAYAK / BOAT

BANK

Park once and fish Davis Creek Reservoir SRA shoreline first. Lead with a moving bait for walleye, then pause longer after 9 a.m. Cold CT air at Davis Creek Reservoir punishes cotton gloves.

KAYAK

Open water only after Davis Creek SRA protected coves proves fishable. Walleye along the near shore come first. CT whitecaps at Davis Creek Reservoir end the debate.

BOAT

Treat Davis Creek SRA ramp and main-lake points as the named boat anchor. Idle past occupied pockets, then fish free water for walleye. Confirm ramp status at Davis Creek Reservoir.

LURE BOX

TOP

Shallow cranks on riprap dawn. Walking baits if bait is high. Small swimbaits over points.

MID

Jig + minnow / soft plastic. Blade baits on seams. Moderate cranks on breaks.

BOTTOM

Crawler harness / bottom bouncer. Heavier jigs on current. Ned or drop-shot under high sun.
