HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (7:26 AM CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Walleye plan: Fish rock and gravel 10-25 ft at low light; jig and minnow or troll stickbaits, moderate.**

BIOLOGY

BASS STAGE

Walleye are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~54°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature gauge on the lake; air record trending falling

NATURAL FORAGE

Natural perch and shad finishes cover most sunny scenarios.

ALSO BITING

Northern pike where present. Weeds and creek mouths early.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

DAM & WATER — CONFIRM BEFORE YOU LAUNCH

FIXED Dam-controlled water. No shared generation/level feed this cycle — check the agency page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ACCESS — BANK / KAYAK / BOAT

BANK

The bank card starts on Elwood Reservoir public shoreline near the recreation access. Cast upwind of pressure so walleye see a bait before boots. Elwood Reservoir is a short-window shore fishery this week.

KAYAK

First casts inside Elwood protected shoreline. Graph bait, fish walleye, then a short legal hop. At Elwood Reservoir, dry bag beats open pocket.

BOAT

Named start Elwood public ramp and main-lake points. If birds work briefly, one move for walleye, then return to plan. Elwood Reservoir midmorning swirls can lie.

LURE BOX

TOP

Shallow cranks on riprap dawn. Walking baits if bait is high. Small swimbaits over points.

MID

Jig + minnow / soft plastic. Blade baits on seams. Moderate cranks on breaks.

BOTTOM

Crawler harness / bottom bouncer. Heavier jigs on current. Ned or drop-shot under high sun.
