HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:33 AM MST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Walleye plan: Fish rock and gravel 10-25 ft at low light; jig and minnow or troll stickbaits, moderate.**

BIOLOGY

BASS STAGE

Walleye are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~54°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature gauge on the lake; air record trending falling

NATURAL FORAGE

Natural perch, shad, and white finishes cover most sunny scenarios.

ALSO BITING

Northern pike / muskie where present. Weeds and creek mouths early.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. No generation schedule posted by USACE NWDM for Mon Nov 16 – Wed Nov 18 — check the operator page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ACCESS — BANK / KAYAK / BOAT

BANK

Enders SRA shoreline on Frenchman Creek water is the weekday bank play this week. Dawn-jig SRA points for walleye, then slide to deeper legal banks as Central Time sun climbs — Enders is CT, not Mountain. Cool dawns still need layers even when afternoons push mild.

KAYAK

Launch at Enders SRA and stay inside protected SRA coves while any west breeze rakes the Republican-system pool. Hug near-ramp transitions early for walleye, then point-hop only if whitecaps stay down. PFD on in cold water, drift sock ready, and soft soles if you beach to walk a short bank stretch.

BOAT

Idle out of Enders SRA at first light, graph the first Frenchman Creek points for bait, then fan windward breaks as the sun climbs. Walleye often slide deeper under bright Central skies — keep a jig rod and a bottom-bouncer ready.

LURE BOX

TOP

Shallow cranks on riprap dawn. Walking baits if bait is high. Small swimbaits over points.

MID

Jig + minnow / soft plastic. Blade baits on seams. Moderate cranks on breaks.

BOTTOM

Crawler harness / bottom bouncer. Heavier jigs on current. Ned or drop-shot under high sun.
