HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:18 AM PST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Trout plan: Target inflows and shoreline drop-offs as water cools; spoons, spinners and streamers, moderate.**

BIOLOGY

BASS STAGE

Trout are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~53°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature gauge on the lake; air record trending rising

NATURAL FORAGE

Small natural and flash profiles fit clear water.

ALSO BITING

Bow / cutt where stocked. Same dawn window.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. No generation schedule posted by the operator for Mon Nov 16 – Wed Nov 18 — check the operator page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Eagle Valley Reservoir Dam	No generation schedule posted by the operator for Mon Nov 16 – Wed Nov 18 Observed: observed flow at USGS 09417500 (Meadow Valley Wash At Eagle Cyn Nr Ursine, Nv) 27 cfs (Mon 4:15 AM CT)	the operator
Permit / regs	Confirm length limits and seasons on the live state regulations page before you keep fish.	
Clarity	Match small profiles and keep presentations clean in clear water.	

ACCESS — BANK / KAYAK / BOAT

BANK

Spring Valley State Park public shoreline is the weekday bank hub for Eagle Valley trout. Dawn walk-and-cast along park rock with small spoons or spinners, then slide to the next legal park bank as glare builds. Park hours and closed zones matter — confirm before you walk .

KAYAK

Launch at Spring Valley State Park and fish the park shoreline circuit rather than long reservoir crossings. Trout want quiet approaches on calm mornings — soft soles, soft casts, small spoons. PFD on in cold water, drift sock ready if any canyon breeze builds, and give bank anglers on the park rock plenty of room.

BOAT

Idle out of the State Park ramp at first light, graph park points and the near dam-face break for trout, then keep hops short on this compact desert reservoir. Clear sunny water rewards lighter line once the sun clears the ridges.

LURE BOX

TOP

Small spoons at dawn. Inline spinners. Dry flies on calm mornings.

MID

Nymphs under an indicator. Small soft plastics. Light spoons.

BOTTOM

Heavier spoons midday. Egg patterns near inflow. Slow bottom retrieves.
