BITE ODDS · THIS CAST

6/10 — Fair odds

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
− Unsettled · 14°F swing	+ No lightning	+ 5–10 mph usable ripple	+ Clear / sunny (~2%)	~ Fall transition · turnover	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **59–66°F**, lows **41–55°F**, rain chance up to **~2%**. Story is light and bait position — dawn and last light carry the window.

THREE-DAY WEATHER

MONDAY NOV 16

59° F high

LOW	41°F
SKY	Patchy Fog then Sunny
WIND	E 0–5 mph
RAIN	~2%
SUN	6:57 AM / 5:15 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

TUESDAY NOV 17

61° F high

LOW	45°F
SKY	Sunny
WIND	SE 0–5 mph
RAIN	~0%
SUN	6:58 AM / 5:14 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

WEDNESDAY NOV 18

66° F high

LOW	55°F
SKY	Sunny
WIND	S 5–10 mph
RAIN	~1%
SUN	6:59 AM / 5:14 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

Window: Mon–Wed · Air: E → SE → S · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:57 AM CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools. Possible turnover window on stratified reservoirs — the bite can go off for a few days.

Basis: estimated water ~62°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature

NATURAL FORAGE

What's on the menu: Most likely menu: threadfin and gizzard shad around docks, brush, and points; bluegill on shallow cover at first light.

ALSO BITING

Brush piles and dock shade with small jigs; fall is a real second option on Eufaula. Can chase shad on points and flats at first light; a small spoon covers them quickly.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

gauge on the lake; air record trending falling

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. Generation schedule and flows below are copied from the operator as posted at the Cast pull — schedules change; re-check the operator page the morning you fish. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Eufaula Dam	**Mon 11/16: 5 AM - 9 AM CT 86 MW · Tue 11/17: schedule not posted yet · Wed 11/18: schedule not posted yet — Southwestern Power Administration generation schedule** Generating now: turbines passing 230 cfs at last reading (Mon 4:00 AM CT) Observed: pool 581.27 ft (Mon 4:00 AM CT); observed outflow (USACE) 230 cfs (Mon 4:00 AM CT)	USACE (power marketed by Southwestern Power Administration)
Clarity	**Stain / clear match: Creek arms run more stained than the main lake.**	

ACCESS — BANK / KAYAK / BOAT

BANK

Work public shoreline at Arrowhead State Park and Lake Eufaula State Park at first light with a walking bait, then a soft jerkbait or Texas-rig creature along dock edges and brush you can reach legally. With almost no wind all three days, keep your shadow off the water and make longer casts.

KAYAK

Launch from a public ramp at Arrowhead or Lake Eufaula State Park and stay in the creek arms and coves. Throw a topwater at first light, then a fluke or Ned rig around shady docks and brush. Wear a PFD, carry water, and plan to be off the water before the hottest part of the afternoon.

BOAT

From Arrowhead State Park, Lake Eufaula State Park, or another public ramp, start on shaded docks and shallow brush in the creek arms at first light. Once the sun is up, graph brush piles and channel swings in 8–18 ft; a football jig or Texas rig catches the bigger fish. Follow shad schools you see on the graph or the surface.

LURE BOX

TOP

Topwater. Walking bait or popper in bone or shad at first light while the surface is slick.

MID

Soft jerkbait or fluke. Spinnerbait or squarebill.

BOTTOM

Texas rig or jig. Shaky head or Ned rig. Stain / clear match: Creek arms run more stained than the main lake.
