BITE ODDS · THIS CAST

7 /10 — Fair odds

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
~ 12°F swing	+ No lightning	+ 5–10 mph usable ripple	+ Clear / sunny (~3%)	~ Fall transition · turnover	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **61–66°F**, lows **38–50°F**, rain chance up to **~3%**. Story is light and bait position — dawn and last light carry the window.

THREE-DAY WEATHER

MONDAY NOV 16

61° F high

LOW	38°F
SKY	Patchy Fog then Sunny
WIND	SE 0–5 mph
RAIN	~0%
SUN	7:03 AM / 5:16 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

TUESDAY NOV 17

63° F high

LOW	41°F
SKY	Sunny
WIND	S 5–10 mph
RAIN	~0%
SUN	7:04 AM / 5:16 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

WEDNESDAY NOV 18

66° F high

LOW	50°F
SKY	Sunny
WIND	S 5–10 mph
RAIN	~3%
SUN	7:05 AM / 5:15 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

Window: Mon–Wed · Air: SE → S · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (7:03 AM CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools. Possible turnover window on stratified reservoirs — the bite can go off for a few days.

Basis: estimated water ~61°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature

NATURAL FORAGE

What's on the menu: Most likely menu: shad on docks, brush, and points; bluegill on shallow cover at first light.

ALSO BITING

White bass and hybrids. Calm mornings can bring surface feeding on points; spoons and white jigs cover them.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

gauge on the lake; air record trending falling

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. Generation schedule and flows below are copied from the operator as posted at the Cast pull — schedules change; re-check the operator page the morning you fish. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Keystone Dam	Mon 11/16: 4 AM - 1 PM CT 35 MW, 4 PM - 9 PM CT 35 MW · Tue 11/17: schedule not posted yet · Wed 11/18: schedule not posted yet — Southwestern Power Administration generation schedule Generating now: turbines passing 200 cfs at last reading (Mon 4:00 AM CT) Observed: pool 722.90 ft (Mon 4:00 AM CT); observed outflow (USACE) 200 cfs (Mon 4:00 AM CT)	USACE (power marketed by Southwestern Power Administration)
Clarity	The Cimarron and Arkansas arms can carry different water color, so match your colors to the arm you fish.	

ACCESS — BANK / KAYAK / BOAT

BANK

Work public shoreline at Keystone State Park and near Mannford at first light with a walking bait, then a soft jerkbait or Texas-rig creature along dock edges and brush you can reach legally. With no wind, make longer casts and stay low. Midday, fish the shady side of riprap and the deeper end of points.

KAYAK

Launch at Keystone State Park or a public ramp near Mannford and fish the coves and creek arms. Calm wind all week makes this a good kayak window. Throw a topwater at first light, then a fluke or Ned rig around shady docks and brush.

BOAT

From Keystone State Park or public ramps near Mannford and Cleveland, start on shaded docks and brush in the creek arms at first light. Once the sun is up, move to main-lake points and channel swings with a football jig or Texas rig. Keep a spoon or small swimbait ready when white bass push shad to the surface.

LURE BOX

TOP

Topwater. Walking bait or popper in bone or shad at first light while the surface is slick.

MID

Soft jerkbait or fluke. Spinnerbait or squarebill.

BOTTOM

Texas rig or jig. Shaky head or Ned rig. Stain / clear match: Creek arms run more stained than the main lake.
