Oregon

Mon Nov 16 – Wed Nov 18, 2026 · Pacific Time · Largemouth · Smallmouth

BITE ODDS · THIS CAST

Strong odds

8/10

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
+ Stable pattern	+ No lightning	+ 1–3 mph usable ripple	− Rain up to ~74%	+ Fall transition	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **46–50°F**, lows **35–39°F**, rain chance up to **~74%**. Story is the wet stretch — bite windows ride the rain timing, not the calendar.

THREE-DAY WEATHER

MONDAY NOV 16

50° F high

LOW	37°F
SKY	Patchy Fog then Rain Showers Likely
WIND	SE 1 mph
RAIN	~69%
SUN	7:13 AM / 4:41 PM

Frame: Wet day — fish the front side of the rain; slow down and stay close to cover after it passes.

TUESDAY NOV 17

48° F high

LOW	39°F
SKY	Areas Of Fog then Partly Sunny
WIND	SSE 0–3 mph
RAIN	~74%
SUN	7:14 AM / 4:40 PM

Frame: Wet day — fish the front side of the rain; slow down and stay close to cover after it passes.

WEDNESDAY NOV 18

46° F high

LOW	35°F
SKY	Light Rain Likely
WIND	ENE 1 mph
RAIN	~68%
SUN	7:15 AM / 4:39 PM

Frame: Wet day — fish the front side of the rain; slow down and stay close to cover after it passes.

Window: Mon–Wed · Air: SE → SSE → ENE · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (7:13 AM PST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~56°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature gauge on the lake; air record trending steady

NATURAL FORAGE

What's on the menu: Dated hatch reports for this exact window are thin.

ALSO BITING

Largemouth · brush pockets. Brushy pockets still hold largemouth when rock smallmouth pause.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. No generation schedule posted by USACE NWDP for Mon Nov 16 – Wed Nov 18 — check the operator page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Scoggins Dam	No generation schedule posted by USACE NWDP for Mon Nov 16 – Wed Nov 18 Observed: pool 257.41 ft (Mon 4:00 AM CT); observed outflow (USACE) 55 cfs (Mon 4:00 AM CT)	USACE NWDP
Permit / regs	Start at the Dam Overlook riprap before day-use traffic, then walk Eagle Point shore and the bank at Sain Creek Rec Area, where rock and brush still come close to the water.	
Clarity	Favor natural craw, green pumpkin, and translucent baitfish tones on main-lake rock; slightly darker profiles in stained backs after any wind chop.	

ACCESS — BANK / KAYAK / BOAT

BANK

Bring a light layer for the cool dawn. Start at the Dam Overlook riprap before day-use traffic, then walk Eagle Point shore and the bank at Sain Creek Rec Area, where rock and brush still come close to the water.

KAYAK

Launch at Sain Creek for short paddles into the no-wake cove and nearby points, or at Scoggins Creek Rec Area when you want quieter rock without the main-ramp bustle. Soft breeze makes it easy to hold on a point with a tube or small crank and make repeated casts without drifting off the stone.

BOAT

Launch at C-Ramp or the Eagle Point ramp for the shortest runs to dam riprap and main-lake points. Idle carefully near the dam restricted zone. Fish a tube or small crank along stone in the first hour, then slide to slightly deeper points and 8 to 18 ft rock with a Ned or light football jig as the sun climbs.

LURE BOX

TOP

Small walking bait on calm rock pockets. Spinnerbait in white or chartreuse along riprap at dawn. Compact buzzbait on shaded brush edges.

MID

3/8 oz swim jig in green pumpkin or craw. Small crankbait along points and riprap. Spinnerbait for low light on stone.

BOTTOM

Ned rig on deeper points. Light football jig on dam-face rock. Drop-shot minnow when fish suspend off points.
