Mon Nov 16 – Wed Nov 18, 2026 · Pacific Time · Largemouth

BITE ODDS · THIS CAST

8/10 — Strong odds

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
+ Stable pattern	+ No lightning	+ 5–8 mph usable ripple	− Rain up to ~96%	+ Fall transition	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **54–57°F**, lows **39–43°F**, rain chance up to **~96%**. Story is the wet stretch — bite windows ride the rain timing, not the calendar.

THREE-DAY WEATHER

MONDAY NOV 16

56° F high

LOW	41°F
SKY	Rain Showers Likely
WIND	SSW 0–5 mph
RAIN	~81%
SUN	7:12 AM / 4:49 PM

Frame: Wet day — fish the front side of the rain; slow down and stay close to cover after it passes.

TUESDAY NOV 17

57° F high

LOW	43°F
SKY	Patchy Fog then Light Rain
WIND	SSE 1–8 mph
RAIN	~96%
SUN	7:13 AM / 4:48 PM

Frame: Wet day — fish the front side of the rain; slow down and stay close to cover after it passes.

WEDNESDAY NOV 18

54° F high

LOW	39°F
SKY	Light Rain Likely
WIND	S 5 mph
RAIN	~68%
SUN	7:14 AM / 4:47 PM

Frame: Wet day — fish the front side of the rain; slow down and stay close to cover after it passes.

Window: Mon–Wed · Air: SSW → SSE → S · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (7:12 AM PST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~57°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature gauge on the lake; air record trending rising

NATURAL FORAGE

The most likely food is yellow perch, bluegill, and young crappie along the weeds and docks, with crawfish on harder bottom near wood.

ALSO BITING

The limit is one wild adult coho and one jack per day, and five adults per year across the open coastal lakes and rivers.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

DAM & WATER — CONFIRM BEFORE YOU LAUNCH

FIXED Dam-controlled water. No shared generation/level feed this cycle — check the agency page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Permit / regs	Read the current ODFW regulations for the coho bag limit and the one-rod rule before you fish.	
Clarity	Lean on brighter chartreuse and white in the fog and darker colors in stained back bays.	

ACCESS — BANK / KAYAK / BOAT

BANK

Start at the ADA fishing pier at Westlake Park, off Pacific Avenue on the west shore. It is the easiest public bank spot on the lake and it reaches water deep enough for bass, perch, and crappie.

KAYAK

Launch at the Westlake Park ramp and stay in the protected northwest arms, where docks, weeds, and fallen trees sit within a short paddle. The park has a lifejacket loaner station. In fog, stay close to shore and carry a light and a whistle.

BOAT

Launch at the Lane County ramp at Westlake Park: there is no launch fee, but parking needs a day or annual pass, and the lot holds about 35 cars and trailers. The ramp uses a counterclockwise route, so stay right as you enter.

LURE BOX

TOP

Buzzbait along weed edges in the fog. Walking bait on calm, slick mornings. Hollow-body frog over shallow weed mats.

MID

Spinnerbait in white or chartreuse for low light. Squarebill crankbait along wood and dock posts. Small swimbait on a jighead for suspended fish.

BOTTOM

Texas-rigged creature bait around docks. 3/8 oz jig in green pumpkin on wood. Wacky-rigged stickbait off the weed edges.
