BITE ODDS · THIS CAST

7 /10 — Fair odds

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
+ Stable pattern	+ No lightning	~ Flat calm	− Rain up to ~85%	+ Fall transition	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **48–51°F**, lows **34–37°F**, rain chance up to **~85%**. Story is the wet stretch — bite windows ride the rain timing, not the calendar.

THREE-DAY WEATHER

MONDAY NOV 16

49° F high

LOW	37°F
SKY	Rain Showers Likely
WIND	SW 2 mph
RAIN	~56%
SUN	—

Frame: Wet day — fish the front side of the rain; slow down and stay close to cover after it passes.

TUESDAY NOV 17

51° F high

LOW	37°F
SKY	Mostly Sunny
WIND	SSE 2 mph
RAIN	~85%
SUN	—

Frame: Wet day — fish the front side of the rain; slow down and stay close to cover after it passes.

WEDNESDAY NOV 18

48° F high

LOW	34°F
SKY	Rain And Snow
WIND	E 2 mph
RAIN	~85%
SUN	—

Frame: Wet day — fish the front side of the rain; slow down and stay close to cover after it passes.

Window: Mon–Wed · Air: SW → SSE → E · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (first light CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Trout plan: Target inflows and shoreline drop-offs as water cools; spoons, spinners and streamers, moderate.**

BIOLOGY

BASS STAGE

Trout are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~54°F — statewide median of 24 lake estimates from the observed air record (NOAA ACIS) — no coordinates on file for this lake; no water-temperature gauge on the lake; air record trending rising

NATURAL FORAGE

What's on the menu: We do not have a dated forage report for this window. Most likely, small fish such as tui chub and young kokanee, plus insects make up most of the menu this time of year.

ALSO BITING

Kokanee hold in the deeper water near the dam. Remember that the Deschutes River arm is closed to protect spawning kokanee.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. No generation schedule posted by the operator for Mon Nov 16 – Wed Nov 18 — check the operator page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Wickiup Dam	No generation schedule posted by the operator for Mon Nov 16 – Wed Nov 18	the operator
Permit / regs	Bank anglers can walk out from Gull Point Campground or the North Wickiup day-use area to the edge of the old channel.	
Clarity	Light winds all three days mean flat, clear water, so fish will see your line and boat easily.	

ACCESS — BANK / KAYAK / BOAT

BANK

Bank anglers can walk out from Gull Point Campground or the North Wickiup day-use area to the edge of the old channel. Stay out of the closed Deschutes River arm upstream of the Gull Point ramp. Expect cool starts near 46 to 47 degrees, so dress in layers.

KAYAK

Launch at Gull Point if the ramp is still usable, and stay in the main channel near the launch. Watch for mud flats and stumps that sit just under the surface as the water drops.

BOAT

Launch at Gull Point, which ODFW listed as still usable; the North Wickiup dock is out of the water. Run slowly, because the channel is narrow and the flats are shallow. Troll a minnow-shaped plug or a slim spoon along the channel edges for browns, especially in the first and last hours of light.

LURE BOX

TOP

Small dry fly or emerger on rising fish at dawn. Floating minnow twitched along the shoreline at first light.

MID

Small inline spinner cast or trolled along the drop-offs. Slim spoon trolled at mid-depths. Wedding-ring spinner with a worm or corn behind a dodger.

BOTTOM

PowerBait on a sliding-sinker rig. Nightcrawler floated just off the bottom. Balanced leech or chironomid under an indicator.
