HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (7:07 AM EST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~55°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature gauge on the lake; air record trending falling

NATURAL FORAGE

What's on the menu: We do not have a dated forage report for this window. Most likely, small baitfish and young sunfish and perch are the main meal along the weed edges and points, with crayfish on rocky banks and around wood.

ALSO BITING

Stocked trout.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

DAM & WATER — CONFIRM BEFORE YOU LAUNCH

FIXED Dam-controlled water. No shared generation/level feed this cycle — check the agency page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Permit / regs	All boats with motors must be registered, and unpowered boats need a registration or a current launch permit.	

ACCESS — BANK / KAYAK / BOAT

BANK

Expect cool starts, near 40 to 42 degrees mornings, so dress in layers and plan for the bite to build by mid-morning. Fish from the banks around the PFBC Glade Run Access. Every bass and panfish goes back, so pinch your barbs and handle fish gently.

KAYAK

Launch at the Glade Run Access ramp and work the shallow coves and wood. The lake is only 52 acres, so every corner is close. On the windiest day, stay in protected coves and fish the windward points at the cove mouths.

BOAT

Launch at the single PFBC Glade Run Access ramp. Electric motors only at slow, no-wake speed, and all non-trout species must be released right away. Early, work wind-blown points and weed edges with spinnerbaits and squarebills.

LURE BOX

TOP

Walking bait over weed flats on the warmest afternoon. Buzzbait along shady banks at first light. Hollow-body frog over matted weeds.

MID

3/8 oz spinnerbait on wind-blown points. Squarebill crankbait along weed edges and wood. Paddle-tail swimbait for suspended fish.

BOTTOM

Texas-rigged creature bait along weed edges. 3/8 oz jig on points and wood. Drop shot on deeper edges.
