HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:53 AM EST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Slow down: steep points, channel drops and remaining grass just outside the creeks, between the fall flats and the 15-30 ft winter depth; suspending jerkbait with long pauses, jig-and-pig or blade bait crawled down the slope.**

BIOLOGY

BASS STAGE

Largemouth are in the late fall transition — water under the mid-50s, so bass are sliding off the shallow flats toward steeper points and channel drops near their fall feeding areas.

Basis: estimated water ~51°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature

NATURAL FORAGE

What's on the menu: We do not have a dated forage report for this window. Most likely, small baitfish and young sunfish and perch are the main meal along the weed edges and points, with crayfish on rocky banks and around wood.

ALSO BITING

Brown trout. Harveys is a Stocked Trout Water open to year-round fishing, stocked with brown trout before the season and in the fall.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

gauge on the lake; air record trending falling

DAM & WATER — CONFIRM BEFORE YOU LAUNCH

FIXED Dam-controlled water. No shared generation/level feed this cycle — check the agency page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Permit / regs	Check before you launch: the PFBC for any notices about the Harveys Lake Access and the special trout regulations.	

ACCESS — BANK / KAYAK / BOAT

BANK

Expect cool starts, near 38 to 41 degrees mornings, so dress in layers and plan for the bite to build by mid-morning. The shoreline is almost all private, so shore anglers should fish from the PFBC Harveys Lake Access at the northwest corner. Big brown trout move shallow in the fall, and the access is a known spot to meet them.

KAYAK

Launch at the PFBC Harveys Lake Access and stay along the shoreline. This is a big, deep lake with boat traffic, so wear a PFD and watch the wind. On the windiest day, stay in protected coves and fish the windward points at the cove mouths.

BOAT

Launch at the PFBC Harveys Lake Access, with parking for 75 trailers. There is no horsepower limit, so you can cover the whole shoreline. Early, work wind-blown points and weed edges with spinnerbaits and squarebills.

LURE BOX

TOP

Walking bait over weed flats on the warmest afternoon. Buzzbait along shady banks at first light. Hollow-body frog over matted weeds.

MID

3/8 oz spinnerbait on wind-blown points. Squarebill crankbait along weed edges and wood. Paddle-tail swimbait for suspended fish.

BOTTOM

Texas-rigged creature bait along weed edges. 3/8 oz jig on points and wood. Drop shot on deeper edges.
