HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (7:07 AM EST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Smallmouth plan: Go subsurface and a notch slower: edges of drop-offs, rocky points and bluff ends between the fall flats and the 20-40 ft winter depth; jerkbait with pauses, small jig or hula grub on the bottom, blade bait ripped off the bottom on points.**

BIOLOGY

BASS STAGE

Smallmouth are in the late fall transition — water in the low-to-mid 50s, so they are staging on drop-off edges, points and bends between their summer spots and the deep wintering holes.

Basis: estimated water ~53°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature

NATURAL FORAGE

What's on the menu: We do not have a dated forage report for this window. Most likely, small baitfish and young sunfish and perch are the main meal along the weed edges and points, with crayfish on rocky banks and around wood.

ALSO BITING

Muskellunge. Muskellunge have been stocked here, and surveys report a good fishery.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

ACCESS — BANK / KAYAK / BOAT

BANK

Expect cool starts, near 37 to 40 degrees mornings, so dress in layers and plan for the bite to build by mid-morning. Fish from the shoreline near the Nebraska launch and the Kellettville area at the upper end. Rocky points within reach of shore are good for smallmouth.

KAYAK

Launch at the Nebraska launch and fish the upper lake and creek channel. The Kellettville campground area offers a takeout upstream. Rocky points near the launch are a good first stop for smallmouth on a tube or jig.

BOAT

Launch at the free public Nebraska launch near Nebraska Bridge. There is no horsepower limit, so you can run down the lake to the rocky points and the deeper water near the dam. Early, work wind-blown points and weed edges with spinnerbaits and squarebills.

LURE BOX

TOP

Walking bait over weed flats on the warmest afternoon. Buzzbait along shady banks at first light. Hollow-body frog over matted weeds.

MID

3/8 oz spinnerbait on wind-blown points. Squarebill crankbait along weed edges and wood. Paddle-tail swimbait for suspended fish.

BOTTOM

Texas-rigged creature bait along weed edges. 3/8 oz jig on points and wood. Drop shot on deeper edges.
