HOW TO FISH THIS WEATHER

MORNING
- Shallow cover, points, creek mouths
- **First light (7:25 AM CST) → ~9 AM**
- Use any ripple as cover

MIDDAY
- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING
- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Walleye plan: Fish rock and gravel 10-25 ft at low light; jig and minnow or troll stickbaits, moderate.**

BIOLOGY

BASS STAGE

Walleye are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~49°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature gauge on the lake; air record trending falling

NATURAL FORAGE

Dated forage reports for this exact window are thin. Most-likely forage is yellow perch, small baitfish, and invertebrates on weed edges and rock.

ALSO BITING

Yellow perch. Small jigs and minnows on deeper soft bottom and weed edges; perch often bite steadily through midday.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

DAM & WATER — CONFIRM BEFORE YOU LAUNCH

FIXED Dam-controlled water. No shared generation/level feed this cycle — check the agency page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Confirm	SD GFP Fishing	gfp.sd.gov
Clarity	Clarity is unconfirmed for this window; start natural and add chartreuse in the stirred-up water after the wind.	

ACCESS — BANK / KAYAK / BOAT

BANK

Start at Lake Poinsett Recreation Area on the southwest side, where the campground shoreline, fishing access, and rock riprap give bank anglers room to cast. On the wind, the north-shore public access along the Lake Norden corridor puts the waves in your face — cast jigs and minnows or slip-bobbers into the mud line.

KAYAK

Launch from Lake Poinsett Recreation Area or the Estelline-side access at first light, hug protected shorelines, and work weed edges and rock with jigs and slip-bobbers. Wear the PFD, dress in layers for mid-40s to low-50s dawns, and head in if the afternoon breeze builds.

BOAT

Plan: first light–mid-morning CT on rock, weed edges, and points; midday graph deeper flats and bait. Launch options: the Lake Poinsett Recreation Area ramp, the north-side public access off the Lake Norden corridor, and the Estelline-side access.

LURE BOX

TOP

Walking bait or spinnerbait for pike along weed edges on the calm mornings; skip topwater on the wind.

MID

Shad-profile cranks and spinner harnesses across flats and along windward rock; blade baits on deeper edges.

BOTTOM

Jig + minnow or plastic on rock and points; slip-bobber with leech or minnow on weed edges; small jigs for perch on deeper soft bottom. Stain / clear match: Clarity unconfirmed. Natural / perch / gold on calm days; chartreuse, orange, or firetiger in the stirred-up water.
