BITE ODDS · THIS CAST

Strong odds

9/10

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
+ Mostly stable	+ No lightning	+ 0–5 mph usable ripple	+ Clear / sunny (~0%)	+ Fall transition	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **59–68°F**, lows **30–35°F**, rain chance up to **~0%**. Story is light and bait position — dawn and last light carry the window.

THREE-DAY WEATHER

MONDAY NOV 16

59° F high

LOW	30°F
SKY	Widespread Frost then Sunny
WIND	NE 0–5 mph
RAIN	~0%
SUN	6:20 AM / 4:32 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

TUESDAY NOV 17

64° F high

LOW	32°F
SKY	Widespread Frost then Sunny
WIND	0 mph
RAIN	~0%
SUN	6:21 AM / 4:31 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

WEDNESDAY NOV 18

68° F high

LOW	35°F
SKY	Widespread Frost then Sunny
WIND	0 mph
RAIN	~0%
SUN	6:22 AM / 4:31 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

Window: Mon–Wed · Air: NE → · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:20 AM CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Smallmouth plan: Cover rock flats and points 5-20 ft as fish feed up; jerkbait, swimbait and blade bait at a moderate-to-fast pace.**

BIOLOGY

BASS STAGE

Smallmouth are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~58°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature gauge on the lake; air record trending falling

NATURAL FORAGE

Dated forage reports for this exact window are thin. Most-likely forage is threadfin shad and alewife in open water, with crawfish on rocky banks — a key smallmouth food on both lakes.

ALSO BITING

Walleye · trout. Center Hill walleye on deep points at low light; Dale Hollow trout hold deep in cool water — soft language only.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. Generation schedule and flows below are copied from the operator as posted at the Cast pull — schedules change; re-check the operator page the morning you fish. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Dale Hollow Dam	Mon 11/16: 5 AM - 7 AM CT 15 MW, 4 PM - 9 PM CT 15 MW · Tue 11/17: 4 AM - 9 AM CT 15 MW, 6 PM - 8 PM CT 15 MW · Wed 11/18: 105 MWh scheduled (daily total) — USACE Nashville District hydropower schedule	USACE Nashville District
Center Hill Dam	Mon 11/16: 4 AM - 7 AM CT 45 MW, 5 PM - 7 PM CT 45 MW · Tue 11/17: 6 AM - 8 AM CT 45 MW · Wed 11/18: 90 MWh scheduled (daily total) — USACE Nashville District hydropower schedule	USACE Nashville District
Confirm	TWRA Fishing	tn.gov
Confirm	TN eRegulations	eregulations.com
Permit / regs	The Wolf River arm of Dale Hollow is TN–KY reciprocal water — know your license.	
Clarity	With calm, bright afternoons on gin-clear water, midday means finesse on deeper rock — 20–35 ft on Dale Hollow, a bit shallower on Center Hill.	

ACCESS — BANK / KAYAK / BOAT

BANK

On Dale Hollow, fish from the Dale Hollow Dam recreation area near Celina, Lillydale Recreation Area, or Obey River Park near Byrdstown, all with rocky shoreline near deep water. On Center Hill, Edgar Evins State Park and Floating Mill Park give bank space on steep, rocky banks.

KAYAK

Paddle the protected coves near Lillydale and Willow Grove on Dale Hollow, or the quiet creek arms near Edgar Evins State Park on Center Hill. Calm water is ideal for drifting points and bluff ends with a drop-shot. Bring a small anchor to hold on a point while you work a drop-shot slowly.

BOAT

Launch at Dale Hollow Dam, Lillydale, or Obey River Park on Dale Hollow, or Edgar Evins State Park, Floating Mill, or Ragland Bottom on Center Hill. The Wolf River arm of Dale Hollow is TN–KY reciprocal water — know your license. The breeze is the day to run main-lake points with a jerkbait; calm favors finesse and spybaits.

LURE BOX

TOP

Small walking bait and popper (bone / clear) at first light; wakebait on calm evenings.

MID

Jerkbait (ghost shad) and small swimbait on windblown points; spybait and hair jig on calm, clear points.

BOTTOM

Drop-shot and ned rig (green pumpkin / smoke); tube (watermelon / brown) on chunk rock; football jig (brown) on deeper bluff ends and channel swings. Stain / clear match: Expect very clear water on Dale Hollow and clear-to-light green on Center Hill. Natural colors and light fluorocarbon throughout.
