LOW	50°F
SKY	Sunny
WIND	SE 0–5 mph
RAIN	~1%
SUN	6:53 AM / 5:17 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

Window: Mon–Wed · Air: NE → E → SE · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:51 AM CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools. Possible turnover window on stratified reservoirs — the bite can go off for a few days.

Basis: estimated water ~66°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature

NATURAL FORAGE

Cool nights pull bait toward Big Cypress Creek arm and related edges, and largemouth bass follow that forage. What's on the menu: fall baitfish and shad where present, with sunfish and crawfish around docks, rocks, and timber.

ALSO BITING

Secondary species and park fishing stay in play around the same access points listed above. Arrive early on sunny days — recreational traffic builds after midmorning even.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

Permit / regs	Regulations: Confirm current bag and length limits with TPWD before you keep fish, and confirm park day-use fees and any no-wake or closure rules with Sabine River Authority / TPWD State Park before you launch.	

ACCESS — BANK / KAYAK / BOAT

BANK

Start at Lake Bob Sandlin State Park and at County Ramp at FM 21, both public access points where you can reach shoreline at first light without blocking the ramps. Fish away from the loading piers and keep courtesy docks clear for trailers. Overlook Park area also gives bank room along riprap and park shoreline.

KAYAK

Launch at Lake Bob Sandlin State Park to reach protected water near Big Cypress Creek arm, or use County Ramp at FM 21 to work Brushy Creek without fighting the busiest boat traffic. Lake Bob Sandlin State Park also puts a kayak into quieter water close to riprap and shade.

BOAT

Launch at Lake Bob Sandlin State Park, County Ramp at FM 21, or Overlook Park area — public ramps that serve the main arms anglers use this week. Idle clear of ski courses and swim beaches, and confirm which ramps sit in the water before you tow.

LURE BOX

TOP

Topwater & walking baits. Small walking baits. Poppers.

MID

White or chartreuse spinnerbaits. Lipless cranks. Small paddle-tail swimbaits for covering mouths and points when fish are moving with shad or baitfish.

BOTTOM

Texas-rig worms, shaky heads, and jigs in green pumpkin or watermelon around docks, timber, brush, and the first drop. Flip shade lines once the sun is high and the surface bite fades.
