Canyon Lake

Texas
Mon Nov 16 – Wed Nov 18, 2026 · Central Time · Largemouth

BITE ODDS · THIS CAST

6/10 — Fair odds

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
− Unsettled · 14°F swing	+ No lightning	+ 5–10 mph usable ripple	+ Clear / sunny (~15%)	~ Fall transition · turnover	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **56–70°F**, lows **43–55°F**, rain chance up to **~15%**. Story is light and bait position — dawn and last light carry the window.

THREE-DAY WEATHER

MONDAY NOV 16

56° F high

LOW	43°F
SKY	Mostly Cloudy
WIND	NNE 5–10 mph
RAIN	~15%
SUN	6:58 AM / 5:36 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

TUESDAY NOV 17

65° F high

LOW	45°F
SKY	Sunny
WIND	NE 0–5 mph
RAIN	~0%
SUN	6:59 AM / 5:36 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

WEDNESDAY NOV 18

70° F high

LOW	55°F
SKY	Partly Sunny
WIND	E 0–5 mph
RAIN	~5%
SUN	7:00 AM / 5:35 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

Window: Mon–Wed · Air: NNE → NE → E · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:58 AM CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools. Possible turnover window on stratified reservoirs — the bite can go off for a few days.

Basis: estimated water ~68°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature

NATURAL FORAGE

Cool nights pull bait toward Potters Creek and related edges, and largemouth bass follow that forage. What's on the menu: fall baitfish and shad where present, with sunfish and crawfish around docks, rocks, and timber.

ALSO BITING

Secondary species and park fishing stay in play around the same access points listed above. Arrive early on sunny days — recreational traffic builds after midmorning even.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

gauge on the lake; air record trending falling

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. No generation schedule posted by the operator for Mon Nov 16 – Wed Nov 18 — check the operator page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Canyon (TWDB)	No generation schedule posted by the operator for Mon Nov 16 – Wed Nov 18 Observed: pool 907.60 ft (Sun 11/15); observed outflow (USACE) 103 cfs (Mon 2:00 AM CT)	the operator
Permit / regs	Regulations: Confirm current bag and length limits with TPWD before you keep fish, and confirm park day-use fees and any no-wake or closure rules with USACE Canyon Lake before you launch.	

ACCESS — BANK / KAYAK / BOAT

BANK

Start at Potters Creek Park and at Canyon Park, both public access points where you can reach shoreline at first light without blocking the ramps. Fish away from the loading piers and keep courtesy docks clear for trailers. Cranes Mill Park also gives bank room along riprap and park shoreline.

KAYAK

Launch at Potters Creek Park to reach protected water near Potters Creek, or use Canyon Park to work the Guadalupe arm without fighting the busiest boat traffic. Potters Creek Park also puts a kayak into quieter water close to riprap and shade. Paddle edges and dock or timber lines well off any buoyed ski lanes.

BOAT

Launch at Potters Creek Park, Canyon Park, or Cranes Mill Park — public ramps that serve the main arms anglers use this week. Idle clear of ski courses and swim beaches, and confirm which ramps sit in the water before you tow. At first light, run Potters Creek, the Guadalupe arm, and Cranes Mill coves for schooling fish on shad.

LURE BOX

TOP

Topwater & walking baits. Small walking baits. Poppers.

MID

White or chartreuse spinnerbaits. Lipless cranks. Small paddle-tail swimbaits for covering mouths and points when fish are moving with shad or baitfish.

BOTTOM

Texas-rig worms, shaky heads, and jigs in green pumpkin or watermelon around docks, timber, brush, and the first drop. Flip shade lines once the sun is high and the surface bite fades.
