Lewisville Lake

Texas
Mon Nov 16 – Wed Nov 18, 2026 · Central Time · Largemouth

BITE ODDS · THIS CAST

Fair odds

7 /10

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
~ 12°F swing	+ No lightning	+ 5–10 mph usable ripple	+ Clear / sunny (~12%)	~ Fall transition · turnover	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **60–68°F**, lows **43–55°F**, rain chance up to **~12%**. Story is light and bait position — dawn and last light carry the window.

THREE-DAY WEATHER

MONDAY NOV 16

60° F high

LOW	43°F
SKY	Sunny
WIND	NE 5 mph
RAIN	~12%
SUN	6:59 AM / 5:25 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

TUESDAY NOV 17

65° F high

LOW	46°F
SKY	Sunny
WIND	ESE 5 mph
RAIN	~0%
SUN	7:00 AM / 5:25 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

WEDNESDAY NOV 18

68° F high

LOW	55°F
SKY	Mostly Sunny
WIND	SE 5–10 mph
RAIN	~2%
SUN	7:01 AM / 5:24 PM

Frame: Stable day — first-light moving bait, then slow down around shade and cover once the sun is up.

Window: Mon–Wed · Air: NE → ESE → SE · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:59 AM CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools. Possible turnover window on stratified reservoirs — the bite can go off for a few days.

Basis: estimated water ~65°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature

NATURAL FORAGE

Cool nights pull shad toward creek mouths and along the old Elm Fork channel, and white bass and hybrids follow that bait in packs anglers can see on the surface. Largemouth slide shallower around docks, riprap, and timber on the same cool mornings, then settl

ALSO BITING

Largemouth bass: secondary but very fishable around docks, riprap, and creek timber once the white bass schools settle. Crappie: look under bridges and around brush piles with minnows and jigs as the water cools.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

gauge on the lake; air record trending falling

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. No generation schedule posted by the operator for Mon Nov 16 – Wed Nov 18 — check the operator page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Lewisville (TWDB)	No generation schedule posted by the operator for Mon Nov 16 – Wed Nov 18 Observed: pool 517.76 ft (Sun 11/15); observed outflow (USACE) 220 cfs (Mon 2:00 AM CT)	the operator
Permit / regs	Start at Hickory Creek Park on the southwest arm and at Stewart Creek Park farther up the same creek, both USACE day-use areas with shoreline you can walk at first light without blocking the ramps.	

ACCESS — BANK / KAYAK / BOAT

BANK

Start at Hickory Creek Park on the southwest arm and at Stewart Creek Park farther up the same creek, both USACE day-use areas with shoreline you can walk at first light without blocking the ramps. Fish away from the loading piers and keep the courtesy docks clear for trailers.

KAYAK

Launch at Hickory Creek Park to reach the protected bends of Hickory Creek, or use Stewart Creek Park to work the timber and docks farther up that arm without fighting main-lake boat traffic. Oak Grove Park and Westlake Park also put a kayak into quieter water close to riprap and shade.

BOAT

Launch at Hickory Creek Park, Stewart Creek Park, Westlake Park, Little Elm Park, or Oak Grove Park — all public USACE or city ramps that serve Lewisville's main arms. Idle clear of the ski courses and give personal watercraft room; this is one of the busiest reservoirs in North Texas.

LURE BOX

TOP

Topwater & walking baits. Small walking baits. Poppers.

MID

White or chartreuse spinnerbaits. Rat-L-Trap-style lipless cranks. Small paddle-tail swimbaits for covering creek mouths and points when fish are moving with shad.

BOTTOM

Texas-rig worms, shaky heads, and jigs in green pumpkin or watermelon around dock posts, brush, and the first drop. Flip shade lines once the sun is high and the topwater bite fades.
