HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:58 AM CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Follow shad into the backs of creeks and flats 1-10 ft; spinnerbait, squarebill and topwater at a fast pace.**

BIOLOGY

BASS STAGE

Largemouth are in the fall transition — following bait into creeks and onto flats as water cools. Possible turnover window on stratified reservoirs — the bite can go off for a few days.

Basis: estimated water ~67°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day

NATURAL FORAGE

Cool nights pull bait toward the Brazos channel and related edges, and white bass follow that forage. What's on the menu: fall baitfish and shad where present, with sunfish and crawfish around docks, rocks, and timber.

ALSO BITING

Secondary species and park fishing stay in play around the same access points listed above. Arrive early on sunny days — recreational traffic builds after midmorning even.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

response); no water-temperature gauge on the lake; air record trending falling

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. No generation schedule posted by the operator for Mon Nov 16 – Wed Nov 18 — check the operator page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Whitney (TWDB)	No generation schedule posted by the operator for Mon Nov 16 – Wed Nov 18 Observed: pool 530.17 ft (Sun 11/15); observed outflow (USACE) 50 cfs (Mon 2:00 AM CT)	the operator
Permit / regs	Regulations: Confirm current bag and length limits with TPWD before you keep fish, and confirm park day-use fees and any no-wake or closure rules with USACE / TPWD State Park before you launch.	

ACCESS — BANK / KAYAK / BOAT

BANK

Start at Lake Whitney State Park and at USACE Riverside Park, both public access points where you can reach shoreline at first light without blocking the ramps. Fish away from the loading piers and keep courtesy docks clear for trailers. Kimball Bend / public Corps ramps also gives bank room along riprap and park shoreline.

KAYAK

Launch at Lake Whitney State Park to reach protected water near the Brazos channel, or use USACE Riverside Park to work Whitney Creek without fighting the busiest boat traffic. Lake Whitney State Park also puts a kayak into quieter water close to riprap and shade.

BOAT

Launch at Lake Whitney State Park, USACE Riverside Park, or Kimball Bend / public Corps ramps — public ramps that serve the main arms anglers use this week. Idle clear of ski courses and swim beaches, and confirm which ramps sit in the water before you tow.

LURE BOX

TOP

Topwater & walking baits. Small walking baits. Poppers.

MID

White or chartreuse spinnerbaits. Lipless cranks. Small paddle-tail swimbaits for covering mouths and points when fish are moving with shad or baitfish.

BOTTOM

Texas-rig worms, shaky heads, and jigs in green pumpkin or watermelon around docks, timber, brush, and the first drop. Flip shade lines once the sun is high and the surface bite fades.
