HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (7:17 AM MST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Smallmouth plan: Go subsurface and a notch slower: edges of drop-offs, rocky points and bluff ends between the fall flats and the 20-40 ft winter depth; jerkbait with pauses, small jig or hula grub on the bottom, blade bait ripped off the bottom on points.**

BIOLOGY

BASS STAGE

Smallmouth are in the late fall transition — water in the low-to-mid 50s, so they are staging on drop-off edges, points and bends between their summer spots and the deep wintering holes.

Basis: estimated water ~51°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature

NATURAL FORAGE

Cool nights pull bait toward the Little Bear River arm and related edges, and rainbow trout follow that forage. What's on the menu: fall baitfish and shad where present, with sunfish and crawfish around docks, rocks, and timber.

ALSO BITING

Secondary species and park fishing stay in play around the same access points listed above. Arrive early on sunny days — recreational traffic builds after midmorning even.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

DAM & WATER — GENERATION SCHEDULE

FIXED Dam-controlled water. No generation schedule posted by the operator for Mon Nov 16 – Wed Nov 18 — check the operator page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

Permit / regs	Call or check the board for Hyrum State Park main ramp and State Park swimming / day-use bank before you leave.	

ACCESS — BANK / KAYAK / BOAT

BANK

Start at Hyrum State Park main ramp and at State Park swimming / day-use bank, both public access points where you can reach shoreline at first light without blocking the ramps. Fish away from the loading piers and keep courtesy docks clear for trailers.

KAYAK

Launch at Hyrum State Park main ramp to reach protected water near the Little Bear River arm, or use State Park swimming / day-use bank to work dam face without fighting the busiest boat traffic. Hyrum State Park main ramp also puts a kayak into quieter water close to riprap and shade.

BOAT

Launch at Hyrum State Park main ramp, State Park swimming / day-use bank, or Carry-in shoreline away from the ramp — public ramps that serve the main arms anglers use this week. Idle clear of ski courses and swim beaches, and confirm which ramps sit in the water before you tow.

LURE BOX

TOP

Topwater & walking baits. Small walking baits. Poppers.

MID

White or chartreuse spinnerbaits. Lipless cranks. Small paddle-tail swimbaits for covering mouths and points when fish are moving with shad or baitfish.

BOTTOM

Texas-rig worms, shaky heads, and jigs in green pumpkin or watermelon around docks, timber, brush, and the first drop. Flip shade lines once the sun is high and the surface bite fades.
