PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
− Unsettled · 15°F swing	− Lightning in forecast	− Up to 18 mph · open-water chop	− Rain up to ~99%	~ Fall transition	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **44–55°F**, lows **19–34°F**, rain chance up to **~99%**. Story is the wet stretch — bite windows ride the rain timing, not the calendar.

THREE-DAY WEATHER

MONDAY NOV 16

55° F high

LOW	34°F
SKY	Partly Sunny
WIND	SSE 6–13 mph
RAIN	~50%
SUN	7:10 AM / 5:15 PM

Frame: Wet day — fish the front side of the rain; slow down and stay close to cover after it passes.

TUESDAY NOV 17

47° F high

LOW	19°F
SKY	Showers And Thunderstorms
WIND	S 12–18 mph
RAIN	~99%
SUN	7:11 AM / 5:14 PM

Frame: Wet day — fish the front side of the rain; slow down and stay close to cover after it passes.

WEDNESDAY NOV 18

44° F high

LOW	23°F
SKY	Mostly Sunny
WIND	S 1–10 mph
RAIN	~11%
SUN	7:12 AM / 5:13 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

Window: Mon–Wed · Air: SSE → S · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (7:10 AM MST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Slow down: steep points, channel drops and remaining grass just outside the creeks, between the fall flats and the 15-30 ft winter depth; suspending jerkbait with long pauses, jig-and-pig or blade bait crawled down the slope.**

BIOLOGY

BASS STAGE

Largemouth are in the late fall transition — water under the mid-50s, so bass are sliding off the shallow flats toward steeper points and channel drops near their fall feeding areas.

Basis: estimated water ~48°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response); no water-temperature

NATURAL FORAGE

Cool nights pull bait toward park shoreline and related edges, and rainbow trout follow that forage. What's on the menu: fall baitfish and shad where present, with sunfish and crawfish around docks, rocks, and timber.

ALSO BITING

Secondary species and park fishing stay in play around the same access points listed above. Arrive early on sunny days — recreational traffic builds after midmorning even.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

gauge on the lake; air record trending falling

WATER BOARD — LAKE CHEAT SHEET

FIXED Natural / small-impoundment water — no generation table. Check access rules and level notes with the managing agency before you go.

ITEM	NOTE	SOURCE
Permit / regs	Call or check the board for Otter Creek State Park main ramp and State Park day-use bank before you leave.	

ACCESS — BANK / KAYAK / BOAT

BANK

Start at Otter Creek State Park main ramp and at State Park day-use bank, both public access points where you can reach shoreline at first light without blocking the ramps. Fish away from the loading piers and keep courtesy docks clear for trailers.

KAYAK

Launch at Otter Creek State Park main ramp to reach protected water near park shoreline, or use State Park day-use bank to work dam face without fighting the busiest boat traffic. Otter Creek State Park main ramp also puts a kayak into quieter water close to riprap and shade.

BOAT

Launch at Otter Creek State Park main ramp, State Park day-use bank, or Kayak launch near the main ramp — public ramps that serve the main arms anglers use this week. Idle clear of ski courses and swim beaches, and confirm which ramps sit in the water before you tow.

LURE BOX

TOP

Topwater & walking baits. Small walking baits. Poppers.

MID

White or chartreuse spinnerbaits. Lipless cranks. Small paddle-tail swimbaits for covering mouths and points when fish are moving with shad or baitfish.

BOTTOM

Texas-rig worms, shaky heads, and jigs in green pumpkin or watermelon around docks, timber, brush, and the first drop. Flip shade lines once the sun is high and the surface bite fades.
