WEEK Early-week setup on this water — highs **43–53°F**, lows **33–39°F**, rain chance up to **~89%**. Story is the wet stretch — bite windows ride the rain timing, not the calendar.

THREE-DAY WEATHER

MONDAY NOV 16

52° F high

LOW	39°F
SKY	Mostly Cloudy
WIND	ESE 5 mph
RAIN	~16%
SUN	—

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

TUESDAY NOV 17

53° F high

LOW	33°F
SKY	Rain Showers
WIND	SE 15–25 mph
RAIN	~89%
SUN	—

Frame: Wet day — fish the front side of the rain; slow down and stay close to cover after it passes.

WEDNESDAY NOV 18

43° F high

LOW	33°F
SKY	Mostly Sunny
WIND	SSW 0–5 mph
RAIN	~14%
SUN	—

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

Window: Mon–Wed · Air: ESE → SE → SSW · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (first light CST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Trout plan: Target inflows and shoreline drop-offs as water cools; spoons, spinners and streamers, moderate.**

BIOLOGY

BASS STAGE

Trout are in the fall transition — following bait into creeks and onto flats as water cools.

Basis: estimated water ~49°F — statewide median of 22 lake estimates from the observed air record (NOAA ACIS) — no coordinates on file for this lake; no water-temperature gauge on the lake; air record trending falling

NATURAL FORAGE

Cool nights pull bait toward south ramp shoreline and related edges, and rainbow trout follow that forage. What's on the menu: fall baitfish and shad where present, with sunfish and crawfish around docks, rocks, and timber.

ALSO BITING

Secondary species and park fishing stay in play around the same access points listed above. Arrive early on sunny days — recreational traffic builds after midmorning even.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

WATER BOARD — LAKE CHEAT SHEET

FIXED Natural / small-impoundment water — no generation table. Check access rules and level notes with the managing agency before you go.

ITEM	NOTE	SOURCE
Permit / regs	Call or check the board for Panguitch Lake South public ramp and South-shore day-use bank before you leave.	

ACCESS — BANK / KAYAK / BOAT

BANK

Start at Panguitch Lake South public ramp and at South-shore day-use bank, both public access points where you can reach shoreline at first light without blocking the ramps. Fish away from the loading piers and keep courtesy docks clear for trailers. Carry-in shoreline also gives bank room along riprap and park shoreline.

KAYAK

Launch at Panguitch Lake South public ramp to reach protected water near south ramp shoreline, or use South-shore day-use bank to work weed beds without fighting the busiest boat traffic. Panguitch Lake South public ramp also puts a kayak into quieter water close to riprap and shade.

BOAT

Launch at Panguitch Lake South public ramp, South-shore day-use bank, or Carry-in shoreline — public ramps that serve the main arms anglers use this week. Idle clear of ski courses and swim beaches, and confirm which ramps sit in the water before you tow.

LURE BOX

TOP

Topwater & walking baits. Small walking baits. Poppers.

MID

White or chartreuse spinnerbaits. Lipless cranks. Small paddle-tail swimbaits for covering mouths and points when fish are moving with shad or baitfish.

BOTTOM

Texas-rig worms, shaky heads, and jigs in green pumpkin or watermelon around docks, timber, brush, and the first drop. Flip shade lines once the sun is high and the surface bite fades.
