Weather
National Weather Service forecast for Lake Morey area

Lake Morey

Vermont

Mon Nov 16 – Wed Nov 18, 2026 · Eastern Time · Largemouth

BITE ODDS · THIS CAST

6/10 — Fair odds

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
− Unsettled · 13°F swing	+ No lightning	+ 2–5 mph usable ripple	+ Clear / sunny (~1%)	~ Fall transition	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **45–58°F**, lows **26–31°F**, rain chance up to **~1%**. Story is light and bait position — dawn and last light carry the window.

THREE-DAY WEATHER

MONDAY NOV 16

45° F high

LOW	26°F
SKY	Mostly Cloudy
WIND	N 5 mph
RAIN	~1%
SUN	6:44 AM / 4:21 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

TUESDAY NOV 17

53° F high

LOW	30°F
SKY	Mostly Sunny
WIND	W 2 mph
RAIN	~0%
SUN	6:45 AM / 4:20 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

WEDNESDAY NOV 18

58° F high

LOW	31°F
SKY	Mostly Sunny
WIND	NW 0–3 mph
RAIN	~0%
SUN	6:46 AM / 4:20 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

Window: Mon–Wed · Air: N → W → NW · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (6:44 AM EST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Slow down: steep points, channel drops and remaining grass just outside the creeks, between the fall flats and the 15-30 ft winter depth; suspending jerkbait with long pauses, jig-and-pig or blade bait crawled down the slope.**

BIOLOGY

BASS STAGE

Largemouth are in the late fall transition — water under the mid-50s, so bass are sliding off the shallow flats toward steeper points and channel drops near their fall feeding areas.

Basis: estimated water ~49°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day response), adjusted by 1 nearby

NATURAL FORAGE

Dock fish in the fall often hold on the deepest, shadiest corners, especially after a cold night. If you catch one fish from a dock, try the next few docks with the same depth and shade.

ALSO BITING

Yellow perch and sunfish around docks are a good family option on the warm afternoon.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

USGS lake gauge; no water-temperature gauge on the lake; air record trending falling

WATER BOARD — LAKE CHEAT SHEET

FIXED Natural / small-impoundment water — no generation table. Check access rules and level notes with the managing agency before you go.

ITEM	NOTE	SOURCE
Permit / regs	Check the live Vermont Fish & Wildlife regulations before you keep fish.	
Clarity	A tube or Ned rig dragged slowly down the drop usually works better than a fast-moving bait in this clear water.	

ACCESS — BANK / KAYAK / BOAT

BANK

Posted public shoreline near the Lake Morey access area on Lake Morey Road and the town beach area put docks and weeds within a short walk. Verify posted access, respect private docks, and keep the ramp clear. Cast a swim jig or spinnerbait along the weed edge once the showers pass.

KAYAK

Launch from the Lake Morey access area. This small, sheltered lake is good kayak water all week, though morning will be cold. Paddle quietly along the shoreline and skip a wacky rig or Texas rig under the docks you can reach legally, without touching private property.

BOAT

Cover the weed edge and rocky stretches with a spinnerbait, lipless crankbait, or jerkbait once the showers pass. Start late and fish docks slowly with a jig or Texas rig, then try deeper weeds with a drop-shot. Fish docks and the weed edge from late morning , and switch to rocky drop-offs for smallmouth in the afternoon.

LURE BOX

TOP

Walking bait or popper (bone / shad) on calm dawns. Buzzbait over the last green weeds on cloudy afternoons. Hollow frog in the thickest remaining pads.

MID

Spinnerbait (white / chartreuse) on windy banks. Lipless crankbait ripped through thinning weeds. Squarebill around docks and wood.

BOTTOM

Texas-rigged craw or creature bait (green pumpkin). Wacky or Ned rig on the outside weed line. Football or finesse jig on deeper edges.
