National Weather Service forecast for Lake Cameahwait area

Lake Cameahwait

Wyoming
Mon Nov 16 – Wed Nov 18, 2026 · Mountain Time · Largemouth · Trout

BITE ODDS · THIS CAST

4/10 — Fair odds

0 2 4 6 8 10

PRESSURE	STORMS	WIND	SKY / RAIN	BASS STAGE	CROWD
~ 12°F swing	+ No lightning	− Up to 17 mph · open-water chop	~ Rain up to ~29%	~ Fall transition	+ Weekday · lighter traffic

WEEK Early-week setup on this water — highs **47–59°F**, lows **20–31°F**, rain chance up to **~29%**. Story is wind — pick banks the breeze is hitting and keep crossings short.

THREE-DAY WEATHER

MONDAY NOV 16

55° F high

LOW	27°F
SKY	Partly Sunny
WIND	SSE 2–6 mph
RAIN	~0%
SUN	7:07 AM / 4:47 PM

Frame: Cold start — let the sun warm the shallows; the better bite often comes later in the day.

TUESDAY NOV 17

59° F high

LOW	31°F
SKY	Mostly Sunny
WIND	SSE 3–15 mph
RAIN	~29%
SUN	7:08 AM / 4:46 PM

Frame: Breeziest day — use ripple on wind-blown banks and points; open-water chop is higher risk.

WEDNESDAY NOV 18

47° F high

LOW	20°F
SKY	Chance Snow Showers then Mostly Sunny
WIND	W 5–17 mph
RAIN	~28%
SUN	7:09 AM / 4:46 PM

Frame: Breeziest day — use ripple on wind-blown banks and points; open-water chop is higher risk.

Window: Mon–Wed · Air: SSE → W · Bite window: dawn + last light

HOW TO FISH THIS WEATHER

MORNING

- Shallow cover, points, creek mouths
- **First light (7:07 AM MST) → ~9 AM**
- Use any ripple as cover

MIDDAY

- Shade lines, docks, deeper edges
- Electronics for bait height first
- Slow down once the sun is overhead

EVENING

- Revisit shallow shade as sun drops
- Topwater if the surface lays down
- Weekday traffic is lighter — work quiet pockets

FALL TRANSITION **Largemouth plan: Slow down: steep points, channel drops and remaining grass just outside the creeks, between the fall flats and the 15-30 ft winter depth; suspending jerkbait with long pauses, jig-and-pig or blade bait crawled down the slope.**

BIOLOGY

BASS STAGE

Largemouth are in the late fall transition — water under the mid-50s, so bass are sliding off the shallow flats toward steeper points and channel drops near their fall feeding areas.

Basis: estimated water ~50°F — 75-day observed air record (NOAA ACIS) lagged for a lake (14-day

NATURAL FORAGE

Reclamation's species list for Cameahwait includes bluegill, green sunfish, perch and crappie, and in fall the young of those fish are prime food for largemouth along the weed edges. Crayfish and frogs round out the menu near shore.

ALSO BITING

Yellow perch · crappie. Small jigs tipped with worm around weed edges and shade.

PRESSURE

Weekday traffic — lighter than the weekend. Fish early, give ramps and swim areas room.

response); no water-temperature gauge on the lake; air record trending falling

DAM & WATER — CONFIRM BEFORE YOU LAUNCH

FIXED Dam-controlled water. No shared generation/level feed this cycle — check the agency page the morning you fish; releases and pool levels change daily. Stay outside buoyed restricted zones.

ITEM	NOTE	SOURCE
Permit / regs	Check current Wyoming regulations for tiger muskie and trout before you keep fish.	

ACCESS — BANK / KAYAK / BOAT

BANK

Cameahwait is one of the easiest lakes in the area to fish from shore, because shoreline roads run around much of it and the picnic shelters and primitive campsites put you right at the water. Walk the edge quietly at first light and cast a weedless soft-plastic worm or a small swimbait along the weed line for largemouth.

KAYAK

This is a perfect kayak lake this week: small, sheltered, and nearly calm every day. Launch at the boat ramp or carry in from a shoreline pull-off near a picnic shelter, and work the weed edges slowly. At dawn, throw a hollow-body frog or a small popper over the weeds and pockets for largemouth.

BOAT

The single-lane boat ramp is the only launch, and on a lake of about 80 acres a small boat or a jon boat is all you need. Use a trolling motor and keep noise down, since calm water carries sound.

LURE BOX

TOP

Hollow-body frog over weeds at dawn and dusk. Small popper or walking bait on calm evenings. Bobber and worm for trout and perch.

MID

3–4" swimbait, bluegill or perch color. Spinnerbait along the weed line in low light. Small spoon or inline spinner for trout.

BOTTOM

Texas-rigged worm, green pumpkin, in cover. Ned rig on the deeper weed edge. Small jig and worm for perch.
